

Product name: N4-Acetylcytosine (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eve protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Powder Color: White Odor: Not determined Odor threshold: Not determined. pH-value: Not applicable Change in condition Melting point/Melting range: Boiling point/Boiling range: >300 °C (>572 °F) Not determined Sublimation temperature / start: Not determined Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Not applicable Not determined Not determined Not determined Auto igniting: Not determined (Contd. on page 3)

Product name: N4-Acetylcytosine

Page 3/4 Printing date 11/24/2015 Reviewed on 02/27/2007

Danger of explosion: Explosion limits:		(Contd. of page
	Product does not present an explosion hazard.	
Lower:	Not determined	
Vabor pressure:	Not determined Not applicable.	
Density:	Not determined	
	Not determined. Not applicable.	
Evaporation rate	Not applicable.	
Solubility in / Miscibility with Water:	Not determined	
Partition coefficient (n-octanol/water):	Not determined.	
Viscosity: dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recomm	nended storage conditions.	
Thermal decomposition / conditions to Possibility of hazardous reactions No o Conditions to avoid No further relevant i	be avoided: Decomposition will not occur if used and stored according to specifications. dangerous reactions known information available.	
Incompatible materials: Oxidizing agent Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides	15	
11 Toxicological information		
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for cla	lagaifigation. No data	
Skin irritation or corrosion: Causes skin	n irritation.	
Eye irritation or corrosion: Causes serie	ious eye irritation.	
Sensitization: No sensitizing effects know Germ cell mutagenicity: No effects know	wn. wn.	
Carcinogenicity: No classification data o Reproductive toxicity: No effects known	on carcinogenic properties of this material is available from the EPA, IARC, NTP, USHA of ACGIH.	
Specific target organ system toxicity -	repeated exposure: No effects known.	
Specific target organ system toxicity - Aspiration hazard: No effects known.	single exposure: May cause respiratory irritation.	
Subacute to chronic toxicity: No effects		
Additional toxicological information: To	o the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity		
Aquatic toxicity: No further relevant info Persistence and degradability No further	rmation available. er relevant information available	
Bioaccumulative potential No further rel	elevant information available.	
Mobility in soil No further relevant inform Additional ecological information:	nation available.	
General notes:		
	e environment without proper governmental permits.
