

Safety Data Sheet per OSHA HazCom 2012

Product name: Methyl 3-amino-5-phenylthiophene-2-carboxylate

Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling exposed contained Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOX) Nitrogen oxides (NOx) Advice for firefighters	ərs.
 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling exposed contained Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides (NOx) Advice for firefighters 	ərs.
Extinguishing media Suitable extinguishing agents Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling exposed containe Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides (NOx) Advice for firefighters	ərs.
Suitable extinguishing agents Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling exposed containe Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides (NOx) Advice for firefighters	ərs.
If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides (NOx) Advice for firefighters	
Sulfur oxides (SOx) Nitrogen oxides (NOx) Advice for firefighters	
Advice for firefighters	
Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation.	
Prevention of secondary hazards: No special measures required. Reference to other sections	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
7 Handling and storage	
Handling Precautions for safe handling	
Keep container tightly sealed. Store in cool, dry place in tightly closed containers.	
Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known.	
Conditions for safe storage, including any incompatibilities	
Storage Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility: Store away from oxidizing agents.	
Store away from strong bases. Further information about storage conditions:	
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required.	
Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.	
Remove all soiled and contaminated clothing immediately.	
Wash hands before breaks and at the end of work. Avoid contact with the eves and skin.	
Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present.	
Protection of hands: Impervious gloves	
Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Eye protection: Safety glasses Body protection: Protective work clothing.	
9 Physical and chemical properties	
Information on basic physical and chemical properties	
General Information Annual Annua	
Form: Powder Color: White	
Odor: Not determined Odor threshold: Not determined.	
pH-value: Not applicable.	
Change in condition Melting point/Melting range: 145-148 °C (293-298 °F)	
Boiling point/Boiling range: Not determined Sublimation temperature / start: Not determined	
Flash point: Not applicable	
Ignition temperature: Not determined	
(Contd.	on page 3) USA —

Product name: Methyl 3-amino-5-phenylthiophene-2-carboxylate

Page 3/4 Printing date 11/24/2015 Reviewed on 06/27/2005

Decomposition temperature:	Not determined	
Auto igniting:	Not determined.	
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.	
Lower:	Not determined	
Upper: Vapor pressure:	Not determined	
vapor pressure: Density:	Not applicable. Not determined	
Relative density	Not determined.	
Vapor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with		
Water:	Not determined	
Partition coefficient (n-octanol/wate Viscosity:	er): Not determined.	
dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
2 24 1 114 - and reactivity		
0 Stability and reactivity Reactivity No information known.		
Chemical stability Stable under reco	ommended storage conditions. Is to be avoided: Decomposition will not occur if used and stored according to specifications.	
Thermal decomposition / condition Possibility of hazardous reactions	is to be avoided: Decomposition will not occur if used and stored according to specifications.	
Conditions to avoid No further releva	NO dangerous reactions known	
Incompatible materials:		
Oxidizing agents Bases		
Hazardous decomposition products	's:	
Carbon monoxide and carbon dioxide Sulfur oxides (SOx))	
Nitrogen oxides		
1 Toxicological information		
Information on toxicological effects	S	
Acute toxicity: No effects known.		
LD/LC50 values that are relevant fo	or classification: No data	
Skin irritation or corrosion: Causes	S SKIIT II THEIDON	
Skin irritation or corrosion: Causes Eye irritation or corrosion: Causes	serious eve irritation.	
Eve irritation or corrosion: Causes :	serious eve irritation.
