

Revision date 12/14/2016
1 Identification Product identifier Product name: Diphenylzinc
Stock number: 87908 CAS Number: 1078-58-6
EC number: 214-082-2 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill. MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com
<i>Information Department:</i> Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS02 Flame
Flam. Sol. 2 H228 Flammable solid. Hazards not otherwise classified No information known. Label elements
GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
GHS02
Signal word Warning Hazard statements H228 Flammable solid. Precautionary statements P210 Keep away from heat/sparks/open flames/hot surfaces No smoking. P280 Wear protective gloves/protective clothing/eye protection/face protection. P240 Ground/bond container and receiving equipment. P241 Use explosion-proof electrical/ventilating/lighting/equipment. P370+P378 In case of fire: Use for extinction: CO2, powder or water spray. WHMIS classification B4 - Flammable solid
Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH 2 FIRE 2 FRESCUNTY[2] Physical Hazard = 2
Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 1078-58-6 Diphenylzinc Concentration: ≤100% Identification number(s): EC number: 214-082-2
<i>4 First-aid measures</i> <i>Description of first aid measures</i> <i>After inhalation</i> <i>Supply fresh air. If required, provide artificial respiration. Keep patient warm.</i> <i>Seek immediate medical advice.</i>
After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. (Contd. on page 2)
USA 🛩

Product name: Diphenvlzing

Product name: Diphenylzinc		
(Contd. of page Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.		
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents In case of fire, use sand, carbon dioxide or powdered extinguishing agent. Never use water. Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. For safety reasons unsuitable extinguishing agents Water Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Zinc oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.		
6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.		
7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage and ecommon storage facility: Store away from air. Store away from water/moisture. Store away from water/moisture. Store away from water/moisture. Store away from water/moisture. This product is moisture sensitive. This product is an sensitive. This product is		
 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short ferm use: 		

Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Safety glasses Body protection: Protective work clothing.

9 Physical and chemical properties	\$				
Information on basic physical and ch					
General Information					
Appearance:					
Form: Color:	Crystalline White				
Odor:	Not determined				
Odor threshold:	Not determined.				
pH-value:	Not applicable.				
Change in condition					
Melting point/Melting range: Boiling point/Boiling range:	280-285 °C (536-545 °F) 107 °C (225 °F)				
Sublimation temperature / start:	Not determined				
Flammability (solid, gaseous)	Highly flammable.				
Ignition temperature: Decomposition temperature:	Nŏt determined Not determined				
Auto igniting:	Not determined.				
Danger of explosion:	Not determined.				
Explosion limits: Lower:	Not determined				
Upper:	Not determined Not determined				
Vapor pressure:	Not applicable. Not determined				
Density: Relative density	Not determined Not determined.				
Vapor density	Not applicable.				
Evaporation rate	Not applicable.				
Solubility in / Miscibility with Water:	Not determined				
Partition coefficient (n-octanol/water)					
Viscosity: dynamic:	Not applicable.				
kinematic:	Not applicable				
Other information	No further relevant information available.				
10 Stability and reactivity					
Reactivity No information known.	monded store an additions				
Thermal decomposition / conditions	nmended storage conditions. to be avoided: Decomposition will not occur if used and stored according to specifications.				
Possibility of hazardous reactions Re	eacts with strong oxidizing agents				
Conditions to avoid No further relevar	nt information available.				
Incompatible materials: Air					
Au Water/moisture					
Oxidizing agents					
Hazardous decomposition products: Carbon monoxide and carbon dioxide					
Zinc oxide					
11 Toxicological information					
Information on toxicological effects Acute toxicity: No effects known.					
LD/LC50 values that are relevant for classification: No data					
Skin irritation or corrosion: May caus	Skin irritation or corrosion: May cause irritation				
Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known.					
Germ cell mutagenicity: No effects known.					
Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.					
Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known.					
Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.					
Subacute to chronic toxicity: No effects known.					
Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.					
Carcinogenic categories OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.					
OSHA-Ca (Occupational Salety & He					
12 Ecological information					
Toxicity					
Aquatic toxicity: No further relevant information available					
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.					
Mobility in soil No further relevant information available.					
Additional ecological information: General notes:					
Do not allow undiluted product or large	quantities to reach ground water, water course or sewage system.				
Avoid transfer into the environment.					
Results of PBT and vPvB assessment PBT: Not applicable.					
vPvB: Not applicable.					
Other adverse effects No further relevant information available.					
13 Disposal considerations					
, Waste treatment methods					
Recommendation Consult state, local or national regulations to ensure proper disposal.					
(Contd. on page 4 USA					

acc. to OSHA HCS	Printing date 01/18/2017 Revision date 12/14/2016			
Product name: Diphenylzinc				
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	(Contd. of page 3)			
14 Transport information				
UN-Number DOT, IMDG, IATA	UN3181			
UN proper shipping name DOT IMDG, IATA	Metal salts of organic compounds, flammable, n.o.s. (Diphenylzinc) METAL SALTS OF ORGANIC COMPOUNDS, FLAMMABLE, N.O.S. (Diphenylzinc)			
Transport hazard class(es)				
Class Label Class	 4.1 Flammable solids, self-reactive substances and solid desensitised explosives. 4.1 4.1 (F3) Flammable solids, self-reactive substances and solid desensitised explosives 4.1 			
Label IMDG, IATA	4.1			
Class Label	4.1 Flammable solids, self-reactive substances and solid desensitised explosives. 4.1			
Packing group DOT, IMDG, IATA	111			
Environmental hazards:	Not applicable.			
Special precautions for user	Warning: Flammable solids, self-reactive substances and solid desensitised explosives			
EMS Number: Segregation groups	F-A,S-I Heavy metals and their salts (including their organometallic compounds)			
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Cod	le Not applicable.			
Transport/Additional information: DOT				
Marine Pollutant (DOT):	No			
UN "Model Regulation":	UN3181, Metal salts of organic compounds, flammable, n.o.s. (Diphenylzinc), 4.1, III			
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms Image: Signal word Warning Hazard statements Hazard statements H228 Flammable solid. Precautionary statements P210 Keep away from heat/sparks/open flames/hot surfaces No smoking. P240 Ground/bond container and receiving equipment. P241 P370+P378 In case of fire: Use for extinction: CO2, powder or water spray. National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricte to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (NDSL).				
SARA Section 313 (specific toxic chemical listings) 1078-58-6 Diphenylzinc				
California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed.				
Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
