1 Identification	
Product identifier Product name: beta-Nicotinamide adenine dinucleotide phosphate monosodium salt	
Stock number: 44126	
CAS Number: 44720 T184-10-3	
EC number:	
214-664-6 Relevant identified uses of the substance or mixture and uses advised against.	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet	
Details of the supplier of the safety data sheet Manufacturer/Supplier:	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.	
30 Bond Street	
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757	
Email: tech@alfa.com www.alfa.com	
Information Department: Health, Safety and Environmental Department Emergency telephone number:	
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-03	789.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS). Hazards not otherwise classified No information known.	
Label elements GHS label elements Not applicable	
Hazard pictograms Not applicable Signal word Not applicable	
Hazard statements Not applicable	
WHMIS classification Not controlled Classification system	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1	
FIRE     1     Flammability = 1       REACTIVITY     Physical Hazard = 1	
Other hazards	
Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients	
Chemical characterization: Substances	
CAS# Description: 1184-16-3 beta-Nicotinamide adenine dinucleotide phosphate monosodium	
salt Concentration: ≤100%	
Identification number(s): EC number: 214-664-6	
4 First-aid measures	
Description of first aid measures	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sodium oxides (NOx)

6 Accidental release measures	
	uipment and emergency procedures
Wear protective equipment. Keep unpr Ensure adequate ventilation	rotected persons away.
Environmental precautions: Do not a	allow material to be released to the environment without proper governmental permits. <b>ent and cleaning up:</b> Pick up mechanically.
Methods and material for containme	ent and cleaning up: Pick up mechanically.
Prevention of secondary hazards: No Reference to other sections	
See Section 7 for information on safe h	nandling
See Section 8 for information on perso See Section 13 for disposal information	nal protection equipment.
Protective Action Criteria for Chemic	cals
PAC-1: Substance is not listed. PAC-2: Substance is not listed.	
PAC-3: Substance is not listed.	
7 Handling and storage	
7 Handling and Storage Handling	
Precautions for safe handling Keep of	container tightly sealed.
Information about protection agains	st explosions and fires: No information known.
Conditions for safe storage, includin	ng any incompatibilities
Storage Requirements to be met by storeroo	<b>oms and receptacles:</b> Store in freezer (-20 $\mathcal{C}$ ).
Information about storage in one co	mmon storage facility:
Protect from heat. Store away from oxidizing agents.	
Further information about storage c	conditions: Keep container tightly sealed. nt information available.
Specific end use(s) No turtner relevan	nt information available.
8 Exposure controls/personal pro	otection
Additional information about design	
Properly operating chemical fume hoor	d designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
Control parameters	
Components with limit values that re The product does not contain any relev	equire monitoring at the workplace: vant quantities of materials with critical values that have to be monitored at the workplace.
Additional information: No data	
Exposure controls	
Personal protective equipment General protective and hygienic mea	
The usual precautionary measures for	r handling chemicals should be followed.
Keep away from foodstuffs, beverages Remove all soiled and contaminated cl	and feed.
Remove all soiled and contaminated cl Wash hands before breaks and at the	lothing immediately. end of work
Maintain an ergonomically appropriate	
Breathing equipment:	contrations are present
Use suitable respirator when high conc Use suitable respiratory protective dev	vice in case of insufficient ventilation.
Use a respirator with type N95 (USA) of	rt term use: or PF (FN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-
purifying respirators are appropriate.	Only use equipment tested and approved under appropriate government standards.
<b>Protection of hands:</b> Impervious gloves	
Check protective gloves prior to each u	use for their proper condition.
I he selection of suitable gloves not on	nly depends on the material, but also on quality.  Quality will vary from manufacturer to manufacturer. ide shields / NIOSH (US) or EN 166(EU)
Body protection: Protective work cloth	hing.
9 Physical and chemical propertie	
Information on basic physical and cl	
General Information	nemical properties
Appearance: Form:	Powder
Odor:	Odorless
Odor threshold:	Not determined.
pH-value:	Not applicable.
Change in condition Melting point/Melting range:	Decomposes
Boiling point/Boiling range:	Not determined
Sublimation temperature / start:	Not determined
Flash point:	Not applicable
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined
Decomposition temperature:	Not determined
Auto igniting:	Not determined.
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.
Lower:	Not determined
Upper: Vapor prossuro:	Not determined
Vapor pressure: Density:	Not applicable. Not determined
Relative density	Not determined.
Vapor density Evaporation rate	Not applicable. Not applicable.
Solubility in / Miscibility with	
Water:	Soluble (Capital on page)
	(Contd. on page ) USA

	Version
Product name: beta-Nicotinamide a	enine dinucleotide phosphate monosodium salt
	(Contd. of page
Partition coefficient (n-octanol/water)	
Viscosity: dynamic:	Not applicable.
kinematic: Other information	Not applicable.
	No further relevant information available.
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recom Thermal decomposition / conditions Possibility of hazardous reactions Re Conditions to avoid No further relevan Incompatible materials: Oxidizing agents Heat Hazardous decomposition products: Carbon monoxide and carbon dioxide Phosphorus oxides (e.g. P2O5) Nitrogen oxide	<b>be avoided:</b> Decomposition will not occur if used and stored according to specifications. cts with strong oxidizing agents
Reproductive toxicity: No effects know Specific target organ system toxicity Specific target organ system toxicity	irritation ritation vn. n carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. r <b>epeated exposure:</b> No effects known.
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	known
Additional toxicological information:	o the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
12 Ecological information Toxicity Aquatic toxicity: No further relevant in Persistence and degradability No further Bioaccumulative potential No further Mobility in soil No further relevant info Additional ecological information: General notes: Do not allow material to be released to i Do not allow undiluted product or large Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. VPvB: Not applicable. Other adverse effects No further relevant	r relevant information available. levant information available. aation available. e environment without proper governmental permits. antities to reach ground water, water course or sewage system.
10 Disseed considerations	
13 Disposal considerations Waste treatment methods Recommendation Consult state, local Uncleaned packagings: Recommendation: Disposal must be n Recommended cleansing agent: Wate	national regulations to ensure proper disposal. de according to official regulations. if necessary with cleansing agents.
14 Transport information	
UN-Number DOT. ADN. IMDG. IATA	Not applicable
UN proper shipping name	
DOT, ÁDR, AĎŃ, IMĎG, IATA	Not applicable
Transport hazard class(es) DOT, ADR, ADN, IMDG, IATA Class	Not applicable
Packing group DOT, ADR, IMDG, IATA	Not oppliable
DOT, ADR, IMDG, IATA Environmental hazards:	Not applicable Not applicable.
Special precautions for user	Not applicable. Not applicable.
· · ·	I of MARPOL73/78 and the IBC Code Not applicable.
Transport/Additional information:

15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable Hazard statements Not applicable Hazard statements Not applicable Mational regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substances is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, come only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out. 16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this construction is furnished without warranty, and any use of the product not is information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user. Initiation the end of this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
Department issuing SDS: Global Marketing Department
Date of preparation/Revision: Print date, revision date and version number are in the header of each page.
Abbreviations and acronyms:
ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
DOT: US Department of Transport das marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Air Transport Association
EINECS: European Inventory of Existing Commercial Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
HMIS: Hazardous Materials Identification System (Canada)
LC50: Lethal concentration, 50 percent
PBT: Persistent, Bioaccumulative and Toxic
SVHC: Substances of Very High Concern
vPWB: very Persistent and very Bioaccumulative
ACGIH: American Cherence of Governmental Industrial Hygienists (USA)
OSHA: Occupational Safety and Health Administration (USA)
IAR: International Agency for Research on Cancer
EPA: Environmental Protection Agency (USA)
