

Safety Data Sheet per OSHA HazCom 2012

## Product name: 2,3,4,5-Tetrafluorobenzoic acid (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for fileoride (HF) Advice for fileoride (HF) Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. **Breathing equipment:** Use suitable respirator when high concentrations are present. **Recommended filter device for short term use:** Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. **Protection of hands:** Impervious gloves The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Crystalline powder White Color: Not determined Odor: Odor threshold: Not determined pH-value: Not applicable. Change in condition Melting point/Melting range: 85-87 °C (185-189 °F) Boiling point/Boiling range: Sublimation temperature / start: Not determined Not determined Flash point: Not applicable Not determined Flammability (solid, gaseous) (Contd. on page 3)

## Product name: 2,3,4,5-Tetrafluorobenzoic acid

Page 3/4 Printing date 11/23/2015 Reviewed on 07/24/2006

		(Contd. of pa
Ignition temperature:	Not determined	
Decomposition temperature: Auto igniting:	Not determined Not determined.	
Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits:	Not determined	
Lower: Upper:	Not determined Not determined	
Vapor pressure:	Not applicable.	
Density: Relative density	Not determined Not determined.	
Vapor density	Not applicable.	
Evaporation rate	Not applicable.	
Solubility in / Miscibility with Water:	Not determined	
Partition coefficient (n-octanol/wate		
Viscosity: dynamic:	Not applicable.	
kinematic:	Not applicable.	
Other information	No further relevant information available.	
Stability and reactivity		
Reactivity No information known. Chemical stability Stable under recor	mmended storage conditions.	
Thermal decomposition / conditions	s to be avoided: Decomposition will not occur if used and stored according to specifications.	
Possibility of hazardous reactions N Conditions to avoid No further releva	No dangerous reactions known not information available	
Incompatible materials: Oxidizing ag	ients	
Hazardous decomposition products Carbon monoxide and carbon dioxide		
Hydrogen fluoride		
Taxiaalagiaal information		
Toxicological information		
Information on toxicological effects Acute toxicity: No effects known.		
LD/LC50 values that are relevant for	r classification: No data	
Skin irritation or corrosion: Causes		
Eye irritation or corrosion: Causes s	serious eye irritation.	
Sensitization: No sensitizing effects k	nown.	
Germ cell mutagenicity: No effects k	nown.	
Sensitization: No sensitizing effects k Germ cell mutagenicity: No effects k Carcinogenicity: No classification dai Perceductive toxicity: No offects ker	nown. ta on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Germ cell mutagenicity: No effects k Carcinogenicity: No classification dat Reproductive toxicity: No effects kno	nown. ta on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. wm.

Safety Data Sheet per OSHA HazCom 2012

Page 4/4 Printing date 11/23/2015 Reviewed on 07/24/2006

USA -

Product name: 2,3,4,5-Tetrafluorobenzoic acid		
	(Contd. of page 3)	
Transport/Additional information: DOT		
Marine Pollutant (DOT):	No	
UN "Model Regulation":	-	
15 Regulatory information Safety, health and environmental regulations/leg GHS label elements The product is classified and Hazard pictograms	egislation specific for the substance or mixture labeled in accordance with 29 CFR 1910 (OSHA HCS)	
GHS07 Signal word Warning Hazard statements		
H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. <b>Precautionary statements</b> P261 Avoid breathing dust/fume/gas/r P280 Wear protective gloves/protectiv P305+P351+P338 IE IN EVES: Rinse cautiously w	mist/vapours/spray. ve clothing/eye protection/face protection. vith water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. o fresh air and keep comfortable for breathing.	
P405 Store locked up.	n accordance with local/regional/national/international regulations.	
This product is not listed in the U.S. Environmental	I Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted ust be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This s or in formulations for commercial purposes. <b>ngs)</b> Substance is not listed.	
Prop 65 - Chemicals known to cause cancer Sub Prop 65 - Developmental toxicity Substance is no Prop 65 - Developmental toxicity, female Substanc Prop 65 - Developmental toxicity, male Substanc	ot listed. ce is not listed. ce is not listed	
Information about limitation of use: For use only Other regulations, limitations and prohibitive re Substance of Very High Concern (SVHC) accord The conditions of restrictions according to Artic market and use must be observed. Substance is not listed.	/ by technically qualified individuals. egulations ding to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. icle 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the	
Annex XIV of the REACH Regulations (requiring Chemical safety assessment: A Chemical Safety	<b>y Authorisation for use)</b> Substance is not listed. v Assessment has not been carried out.	
information to ensure proper use and protect the he	upplement to other information gathered by them, and should make independent judgement of suitability of this ealth and safety of employees. This information is furnished without warranty, and any use of the product not in or in combination with any other product or process, is the responsibility of the user.
