

## Safety Data Sheet

acc. to OSHA HCS	Printing date 01/25/2017 Revision date 01/18/2017
1 Identification	
Product identifier Product name: Lead(II) carbonate, basic	
Stock number: 42089	
CAS Number: 1319-46-6	
<b>EC number:</b> 215-290-6	
Index number: 082-001-00-6	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier:	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.	
30 Bond Street Ward Hill, MA 01835-8099	
Tel: 800-343-0660 Fax: 800-322-4757	
Email: tech@alfa.com www.alfa.com	
Information Department: Health, Safety and Environmental Department Emergency telephone number:	
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call C	arechem 24 at (866) 928-0789.
2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
GHS08 Health hazard	
Repr. 1A H360 May damage fertility or the unborn child. STOT RE 2 H373 May cause damage to the reproductive system, the blood, the brain and the endocrine system throug of exposure: Oral, Inhalative.	gh prolonged or repeated exposure. Route
of exposure: Oral, Inhalative.	
GHS07	
Acute Tox. 4 H302 Harmful if swallowed. Acute Tox. 4 H332 Harmful if inhaled.	
Hazards not otherwise classified No information known.	
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms	
GHS07 GHS08	
Signal word Danger	
Häzard statements H302+H332 Harmful if swallowed or if inhaled.	
H360 May damage fertility or the unborn child. H373 May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolo	nged or repeated exposure. Route of
exposure: Oral, Inhalative. Precautionary statements DSCO	
P260     Do not breathe dust/fume/gas/mist/vapours/spray.       P201     Obtain special instructions before use.       P261     Avoid breathing dust/fume/gas/mist/vapours/spray.	
P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P281 Use personal protective equipment as required. P264 Wash thoroughly after handling.	
P270 Do not eat, drink or smoke when using this product. P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.	
P308+P313 IF exposed or concerned: Get medical advice/attention. P405 Store locked up.	
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification	
D2A - Very toxic material causing other toxic effects	
$(\mathbf{T})$	
Classification system	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH 2 Health (acute effects) = 2 FRE 1 Flammability = 1	
Reactivity 1 Physical Hazard = 1	
Other hazards Results of PBT and vPvB assessment PBT: Not applicable.	
<b>vPvB:</b> Not applicable.	USA

3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 1319-46-6 Lead(II) carbonate, basic Concentration: 3:100% Identification number(9s): EC number: 215-290-6 Index number: 082-001-00-6 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediately medical advice. After skin contact Immediately medical advice. After swallowing Seek medical advice. After support of the unborn child. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media
Chemical characterization: Substances CAS# Description: 1319-46-6 Lead(II) carbonate, basic Concentration: \$100% Identification number(s): EC number: 215-290-6 Index number: 082-001-00-6 <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate advice. After symmediate advice. After symmediate advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if inhaled. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b>
CAS# Description: 1319-46-6 Lead(II) carbonate, basic Concentration: 3100% Identification number(s): EC number: 215-290-6 Index number: 082-001-00-6 <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if swallowed. Harmful if inhaled. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b>
Concentration: \$100% Identification number(s); EC number: 215-290-6 Index number: 082-001-00-6
Identification number(s):         EC number: 215-290-6         Index number: 082-001-00-6         4 First-aid measures         Description of first aid measures         After inhalation         Supply fresh air. Information for doctor         Most important symptoms and effects, both acute and delayed         Harmful if swallowed.         Harmful if inhaled.         May damage fertility or the unborn child.         May damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative.         Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures
Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye advice. After eye advice. Advice. After eye advice. A
Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye adving Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if inhaled. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
After inhalation         Supply fresh air. If required, provide artificial respiration. Keep patient warm.         Seek immediate medical advice.         After skin contact         Immediately wash with water and soap and rinse thoroughly.         Seek immediate medical advice.         After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.         After swallowing Seek medical treatment.         Information for doctor         Most important symptoms and effects, both acute and delayed         Harmful if swallowed.         Harmful if inhaled.         May damage fertility or the unborn child.         May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative.         Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if inhaled. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if inhaled. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Seek immédiate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if inhaled. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Most important symptoms and effects, both acute and delayed         Harmful if swallowed.         Harmful if inhaled.         Way damage fertility or the unborn child.         May damage fertility or the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative.         Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures
Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
5 Fire-fighting measures
Extinguishing media
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:
Carbon monoxide and carbon dioxide
Lead oxide fume
Advice for firefighters Protective equipment:
Wear self-contained respirator.
Wear fully protective impervious suit.
6 Accidental release measures
Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up:
LUSPOSE OF CONTAMINATED MATERIAL AS WASTE ACCORDING TO SECTION 1.3
Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections
Reference to other sections
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.
See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
7 Handling and storage
Handling
Precautions for safe handling Keep container tightly sealed.
Store in cool, dry place in tightly closed containers.
Ensure good ventilation at the workplace.
Open and handle container with care. Information about protection against explosions and fires: No information known.
Conditions for safe storage, including any incompatibilities
Storage
Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility:
Do not store together with acids.
Store away from oxidizing agents.
Further information about storage conditions: Keep container tightly sealed.
Store in cool, dry conditions in well sealed containers.
Specific end use(s) No further relevant information available.
8 Exposure controls/personal protection
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
Control parameters
Components with limit values that require monitoring at the workplace:
1319-46-6 Lead(II) carbonate, basic (100.0%)
PEL (USA) Long-term value: 0.05 mg/m <sup>3</sup> as Pb; See 29 CFR 1910.1025
REL (USA) Long-term value: 0.05* mg/m <sup>3</sup>
as Pb;*8-hr TWA; See Pocket Guide App. C
TLV (USA) Long-term value: 0.05 mg/m <sup>3</sup> as Pb; BEI
(Contd. on page 3)

Product name: Lead(II) carbonate, basic

Additional information: No data	
Exposure controls	
Personal protective equipment General protective and hygienic mea	sures
The usual precautionary measures for <i>I</i> Keep away from foodstuffs, beverages	andling chemicals should be followed.
Remove all soiled and contaminated clo	othing immediately.
Wash hands before breaks and at the e Store protective clothing separately.	na ol work.
Store protective clothing separately. Maintain an ergonomically appropriate v Breathing equipment: Use suitable re-	vorking environment. spirator when high concentrations are present
Recommended filter device for short	spirator when high concentrations are present. term use:
purifying respirators are appropriate. O	or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- nly use equipment tested and approved under appropriate government standards.
<b>Protection of hands:</b> Impervious gloves	
Check protective gloves prior to each us	se for their proper condition.
Penetration of suitable gloves not only Penetration time of glove material (in	/ depends on the material, but also on quality.  Quality will vary from manufacturer to manufacturer. <b>minutes)</b> Not determined
Eye protection: Safety glasses Body protection: Protective work cloth	
9 Physical and chemical properties	
Information on basic physical and ch General Information	emical properties
Appearance: Form:	Powder
Odor:	Odorless
Odor threshold:	Not determined.
pH-value: Change in condition	Not applicable.
Melťina point/Meltina range:	400 °C (752 °F) (dec)
Boiling point/Boiling range: _Sublimation temperature / start:	Not determined `´´
Flammability (solid, gaseous)	Not determined.
Ignition temperature: Decomposition temperature:	Not determined Not determined
Auto igniting:	Not determined.
Danger of explosion: Explosion limits:	Not determined.
Lower:	Not determined
Upper: Vapor pressure:	Not determined Not applicable.
Density at 20 °C (68 °F): Relative density	6.14 g/cm³ (51.238 lbs/gal)
Vapor density	Not determined. Not applicable.
Evaporation rate Solubility in / Miscibility with	Not applicable.
Water at 25 °C (77 °F):	0.0022 g/l
Partition coefficient (n-octanol/water) Viscosity:	: Not determined.
dynamic: kinematic:	Not applicable.
Other information	Not applicable. No further relevant information available.
10 Stability and reactivity Reactivity No information known.	
Chemical stability Stable under recom	
Thermal decomposition / conditions Possibility of hazardous reactions Re	to be avoided: Decomposition will not occur if used and stored according to specifications.
Conditions to avoid No further relevan	t information available.
<b>Incompatible materials:</b> Acids	
Oxidizing agents Hazardous decomposition products:	
Carbon monoxide and carbon dioxide	
Lead oxide fume	
11 Toxicological information	
Information on toxicological effects	
Acute toxicity: Harmful if inhaled.	
Harmful if swallowed.	alaasifiaatian. No doto
LD/LC50 values that are relevant for Skin irritation or corrosion: May caus	e irritation
Eye irritation or corrosion: May cause Sensitization: No sensitizing effects kn	e irritation
	(Contd. on pag

Safety Data Sheet Product name: Lead(II) carbonate, basic

Germ cell mutagenicity: No effects known.	(Contd. of page 3)	
Carcinogenicity: EPA-B2: Probable human carcinogen, sufficient evidence from animal studies; inadequate evidence or no data from epidemiologic studies. NTP-R: Reasonably anticipated to be a carcinogen: limited evidence from studies in humans or sufficient evidence from studies in experimental animals. ACGIH A3: Animal carcinogen: Agent is carcinogenic in experimental animals at a relatively high dose, by route(s) of administration, at site(s), of histologic type(s), or by mechanism(s) not considered relevant to worker exposure. Available epidemologic studies do not confirm an increased risk of cancer in exposed humans. Available evidence suggests that the agent is not likely to cause cancer in humans except under uncommon or unlikely routes or levels of exposure. IARC-2A: Probably carcinogenic to humans: limited human evidence; sufficient evidence in experimental animals <b>Reproductive toxicity:</b> May damage fertility or the unborn child. <b>Specific target organ system toxicity - repeated exposure:</b> May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral,		
Inhalative. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.		
Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. Carcinogenic categories		
OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.		
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Ecotoxical effects: Remark: Very toxic for aquatic organisms		
Additional ecological information: General notes: Also poisonous for fish and plankton in water bodies. May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment. Very toxic for aquatic organisms Results of PBT and vPvB assessment PBT: Not applicable.		
vPvB: Not applicable. Other adverse effects No further relevant information available.		
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

## 15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)

(Contd. of page 4) Hazard pictograms GHS07 GHS08 Signal word Danger 

 Hazard statements

 H302+H332 Harmful if swallowed or if inhaled.

 H360
 May damage fertility or the unborn child.

 H373
 May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative.

 Precautionary statements

 P260
 Do not breathed dust/fume/gas/mist/vapours/spray.

 P201
 Obtain special instructions before use.

 P261
 Avoid breathing dust/fume/gas/mist/vapours/spray.

 P281
 Use personal protective equipment as required.

 P264
 Wash thoroughly after handling.

 P270
 Do not eat, drink or smoke when using this product.

 P308+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

 P308+P313 IF exposed or concerned: Get medical advice/attention.

 P405
 Store locked up.

 Hazard statements Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. P405 P501 Mational regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory. All components of this product are listed on the Canadian Domestic Substances List (DSL). SARA Section 313 (specific toxic chemical listings) 1319-46-6 Lead(II) carbonate, basic California Proposition 65 Prop 65 - Chemicals known to cause cancer 1319-46-6 Lead(II) carbonate, basic Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitation of use, Pol use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. This substance is included in the Candidate List of Substances of Very High Concern (SVHC) according to Regulation (EC) No. 1907/2006 (REACH). The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) is Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out. 16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user. conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
