

Safety Data Sheet per OSHA HazCom 2012

1 Identification Product identifier Product name: Methyl 3-aminocrotonate Stock number: B24953, L04362 CAS Number: 14205-39-1 EC number: 238-056-5 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. Inerrito Fisher Scheman C. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech @alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789. 2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) ! GHS07 Acute Tox. 4 H302 Harmful if swallowed. Acute Tox. 4 H332 Harmful if inhaled. Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2A H319 Causes serious eye irritation. Skin Sens. 1 H317 May cause an allergic skin reaction. STOT SE 3 H335 May cause respiratory irritation. Hazards not otherwise classified No information known. Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms ! GHS07 Signal word Warning

 Algorithm word warming

 Hazard statements

 H302+H332 Harmful if swallowed or if inhaled.

 H315
 Causes skin irritation.

 H319
 Causes serious eye irritation.

 H317
 May cause an allergic skin reaction.

 H335
 May cause respiratory irritation.

 H335
 May cause respiratory irritation.

 P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P405 Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification D2B - Toxic material causing other toxic effects Т Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System) 2 Health (acute effects) = 2Flammability = 2 Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 14205-39-1 Methyl 3-aminocrotonate Identification number(s): EC number: 238-056-5

Extinguishing media Suitable extinguishing approx Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant (cam. Suitable extinguishing approx and in a line, the following can be refused: Carbon moreover, and constrained approximation of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray of the spray of the spray of the spray of alcohol resistant (cam. Suitable extinguishing approximation of the spray	4	Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available.		
Suitable extinguishing sports Carbon double, excinguishing powder or water spray. Fight larger fires with water spray or elochol resistant foam. If this protocols may all on the behaviory can be element. Carbon memory and the behaviory can be element and energency procedures. Presente elements. Carbon memory and the behaviory of the behavio	5	Fire-fighting measures		
Personal precautions, protective equipment and emergency procedures Wear profection equipment. See purpolected persons avay. Ensure adequate ventilation Provemental precautions: Do not all and episons avay. Provemental precautions is to be address and the environment without proper governmental permits. Prive adequate ventilation Provemental precautions is to be address and ecoroling up Provemental precautions is to be address and ecoroling up Provemental precautions is asses according to section 13. Ensure adequate ventilation Provemental material as waste according to section 13. Provementation or secondary hazdres: Keep away from ignition sources. See Section R for information on personal protection equipment. See Section R for information on personal protection equipment. See Section R for information against explosions and fires: Keep ignition sources away. Conditions for safe bandling Proceutions for safe storage, including any incompatibilities Storage Requirements to be met by storecoms and receptacles: No special requirements. Thormation about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storecoms and receptacles: No special requirements. Thermation about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage conditions: Thermation about protection address and more about storage conditions: Thermation about protection address and any storage conditions: Thermation about storage conditions: Storage away from waterify advances. Storage away from w		Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator.		
Ensign adequate vernitation whethods and material to containment and clearing up: Dispose of containment clearing up: Dispose of containment clearing up: Dispose of containment clearing up: Dispos	6	Accidental release measures		
Handling Precautions for safe handling Keep container lightly sealed. Store in cod, dry place in lightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be method store of the		Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.		
Handling Precautions for safe handling Keep container lightly sealed. Store in cod, dry place in lightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be method store of the	7	Handling and storage		
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protective of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Personal but dependent (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing.		Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from oxidizing agents. Store away from water/moisture. Further information about storage conditions: This product is hygroscopic. Store under dry inert gas. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available.		
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protections of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not not y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Exp protection: Safety glasses Body protection: Protective work clothing.	8			
Eye protection: Safety glasses Body protection: Protective work clothing.		Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.		
		Eve protection: Safety glasses Body protection: Protective work clothing.

roduct name. Metryr 5-anniocrotor		(Contd. of page 2)		
9 Physical and chemical properties				
Information on basic physical and che General Information Appearance: Form:				
Color: Odor: Odor threshold:	White to pale yellow Not determined Not determined.			
pH-value:	Not applicable.			
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	81-85 °C (178-185 °F) 122 °C (252 °F) (42mm Hg) Not determined			
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	91 °C (196 °F) Not determined. Not determined Not determined Not determined.			
Danger of explosion: Explosion limits: Lower:	Not determined. Not determined			
Upper: Vapor pressure: Density: Relative density Vapor density	Not determined Not applicable. Not determined Not determined. Not applicable.			
Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water):	Not applicable. Not determined			
Viscosity: dynamic: kinematic: Other information	Not applicable. Not applicable. No further relevant information available.			
Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Water/moisture Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Possibly Hydrogen cyanide (HCN)				
11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if inhaled. Harmful if swallowed.				
The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for components in this product. LD/LC50 values that are relevant for classification:				
Oral LD50 1760 mg/kg (rat) Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: May cause an allergic skin reaction. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.				
Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known.				
Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substance. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.				
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes:				
Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.				
Other adverse effects No further releva	Other adverse effects No further relevant information available.			

Product name: Methyl 3-aminocrotonate
