Revision date 12/06/2016
1 Identification
Product identifier
Product name: Gallium(III) 2,4-pentanedionate
Stock number: 42086 CAS Number: 14405-43-7
EC number: 238-377-0
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street
Ward Hill, MA (1835-8099 Tel: 800-343-0660
Fax: 800-322-4757 Email: tech@alfa.com
www.alfa.com Information Department: Health, Safety and Environmental Department
Emergency telephone number:
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS08 Health hazard
Carc. 2 H351 Suspected of causing cancer.
GHS07
Acute Tox. 4 H302 Harmful if swallowed.
Acute Tox. 4 H312 Harmful in contact with skin. Acute Tox. 4 H332 Harmful if inhaled.
Skin Irrit. 2 H315 Causes skin irritation.
Eye Irrit. 2A H319 Causes serious eye irritation. STOT SE 3 H335 May cause respiratory irritation. Hazards not otherwise classified No information known.
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
GHS07 GHS08
Signal word Warning Hazard statements
H302+H312+H332 Harmful if swallowed, in contact with skin or if inhaled. H315 Causes skin irritation.
H319 Causes serious eye irritation. H351 Suspected of causing cancer.
H335 May cause respiratory irritation. Precautionary statements
P201 Obtain special instructions before use.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection.
P281 Use personal protective equipment as required. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P362 Take off contaminated clothing and wash before reuse.
P363 Wash contaminated clothing before reuse. P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification
D2B - Toxic material causing other toxic effects
(\mathbf{I})
Classification system HMIS ratings (scale 0-4)
(Hazardou's Materials Identification System)
HEALTH I FIRE I FREMULT Physical Hazard = 1
Other hazards
Results of PBT and vPvB assessment PBT: Not applicable.
vPvB: Not applicable.

Description of first aid measures After inhalities After inh	Chemical characterization: Substances CAS# Description: 14405-43-7 Gallium(III) 2,4-pentanedionate Concentration: ≤100% Identification number(s):	
Extinguishing and information of body extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards anising from the substance or mixture if this product is knowled in the the following can be released: Galilium oxide Advice for firefighters Protective aquipment Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective impervious suit. 7 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective impervious suit. Ensure adequate verification. Despose of contaminated material for containment and cleaning up: Dispose of contaminated material for containment and cleaning up: Dispose of contaminated material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate verification. Reference to other sections See Section 1 for information on safe handling See Section 1 for information on safe handling Reap containment and internations. Informations for safe handling Reap container tightly sealed Storage in cool, dry place in tightly cleased containers. Information about protection aquinit septosions and fires: No information known. Conditions for safe handling Reap container tightly sealed Storage controls/special against septosions and fires: No information known. Conditions for safe handling Reap container tightly sealed Storage in ocol, dry place in bightly cleased containers. Hormation about protection aquints texplosions and fires: No information known. Conditions for safe to see containers. Hormation about storage including any incompatibilities Storage Requirements to be met by storerooms and receptecles: No special requirements. Hormation about storage including any incompa	Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes skin irritation. Harmful if swallowed. Causes serious eye irritation. Harmful if inhaled. Harmful in contact with skin. May cause respiratory irritation. Suspected of causing cancer. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
Presonal precautions, protective equipment and emergency procedures Weap productive equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of containmined material as wate according to Section 13. Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of containmined material as wate according to Section 13. Environmental precaution of secondary is See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Reep container tightly seeled. Braue good ventilation a the workpiese. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage conditions: Keep container tightly seeled. Braue good ventilation altic workpiese. Requirements to be met by storerooms and receptacles: No special requirements. Further information about storage conditions: Keep container tightly seeled. Storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly seeled. Specific end use(s) No further relevant information available. 8 Specific end use(s) No further relevant information available. 8 Specific end use(s) No further relevant information available. Specific end use(s) No further relevant information available. 8	Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Gallium oxide Advice for firefighters Protective equipment: Wear self-contained respirator.	
Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures <t< td=""><td>Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.</td><td></td></t<>	Personal precautions, protective equipment and emergency procedures Wear protective equipment. Product name: Gallium(III) 2,4-pentanedionate

(Contd. of page 2)

Recommended filter device for short term use: Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands:

Indervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Eye protection:** Safety glasses **Body protection:** Protective work clothing.

9 Physical and chemical properties

s ringsical and chemical properties	
Information on basic physical and ch General Information Appearance: Form: Odor: Odor: Odor threshold:	emical properties Powder Odorless Not determined.
pH-value:	Not applicable.
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	196-198 °C (385-388 °F) (dec) Not determined Not determined Not determined Not determined Not determined Not determined
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water). Viscosity: dynamic: kinematic: Other information	Not determined. Not determined Not applicable. 1.42 g/cm ² (11.85 lbs/gal) Not determined. Not applicable. Not determined : Not determined. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable. Not applicable.

10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide Gallium oxide 11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if inhaled. Harmful in contact with skin. Harmful if swallowed. Harmful if swallowed. Danger through skin absorption. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Germ cell mutagenicity: No effects known. Carcinogenicity: Suspected of causing cancer. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. Carcinogenic categories OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

Toxicity

I oxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment.
