Safety data sheet according to 1907/2006/EC, Article 31

Printing date 02.07.2013 Revision: 25.11.2009

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

n-Propylmagnesium chloride, 1M in MeTHF H51162 2234-82-4 Trade name

Stock number:

CAS Number:

1.2 Relevant identified uses of the substance or mixture and uses advised against.

SU24 Scientific research and development

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Alfa Aesar GmbH & Co.KG A Johnson Matthey Company Zeppelinstr. 7b 76185 Karlsruhe / Germany Tel: +49 (0) 721 84007 280 Fax: +49 (0) 721 84007 300 Email: tech@alfa.com www.alfa.com

Informing department:

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

GHS02 flame

H225 Highly flammable liquid and vapour. Flam. Liq. 2

Water-react. 2 H261 In contact with water releases flammable gases.

GHS05 corrosion

Skin Corr. 1C H314 Causes severe skin burns and eye damage.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

🔁 C; Corrosive

R34: Causes burns.

F; Highly flammable

R11-14/15: Highly flammable. Reacts violently with water, liberating extremely flammable gases.

May form explosive peroxides Information concerning particular hazards

for human and environment:

Other hazards that do not result in classification

No information known.

Not applicable

2.2 Label elements

z.z Labet elements
Labelling according to Regulation (EC) No
1272/2008
Hazard pictograms
Signal word
Hazard statements

Hazard statements

Precautionary statements

The substance is classified and labelled according to the CLP regulation.

GHS02, GHS05

Danger

H225 Highly flammable liquid and vapour.

H261 In contact with water releases flammable gases.

H314 Causes severe skin burns and eye damage.

P210

Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

Handle under inert gas. Protect from moisture.

P303+P361+P353

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+P351+P338

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Store locked up.

Dispose of contents/container in accordance with local/regional/national/international

P501 Dispose of contents/container in accordance with local/regional/national/international

regulations.
EUH014 Reacts violently with water.
EUH019 May form explosive peroxides. Additional information:

2.3 Other hazards

Results of PBT and vPvB assessment PBT:

vPvB:

Not applicable. Not applicable.

SECTION 3: Composition/information on ingredients

3.1 Substances

CAS# Designation: 2234-82-4 n-Propylmagnesium chloride, 1M in MeTHF

SECTION 4: First aid measures

4.1 Description of first aid measures

General information After inhalation

Instantly remove any clothing soiled by the product. Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms

persist. Seek immediate medical advice. After skin contact

After eye contact

After swallowing
4.2 Most important symptoms and effects, both acute and delayed

4.3 Indication of any immediate medical attention and special treatment needed

Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice.

Rinse opened eye for several minutes under running water. Then consult doctor.

Seek medical treatment.

No further relevant information available No further relevant information available

SECTION 5: Firefighting measures

5.1 Extinguishing media Suitable extinguishing agents

Dry sand

Extinguishing powder. Do not use water.

For safety reasons unsuitable extinguishing agents

Carbon dioxide Water.

(Contd. on page 2)

(Contd. of page 1)

Safety data sheet according to 1907/2006/EC, Article 31

Printing date 02.07.2013 Revision: 25.11.2009

Trade name n-Propylmagnesium chloride, 1M in MeTHF

5.2 Special hazards arising from the

substance or mixture

Reacts violently with water If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI)

Metal oxide

5.3 Advice for mens... Protective equipment: .3 Advice for firefighters Wear self-contained breathing apparatus. Wear full protective suit.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

Keep away from ignition sources

Do not allow material to be released to the environment without proper governmental permits. Do not allow product to reach sewage system or water bodies. Do not allow to enter the ground/soil. 6.2 Environmental precautions:

6.3 Methods and material for containment

and cleaning up:

Keep away from ignition sources.
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Use neutralizing agent.
Dispose of contaminated material as waste according to item 13.

Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents

See Section 7 for information on safe handling
See section 8 for information on personal protection equipment.

Prevention of secondary hazards:

6.4 Reference to other sections

See Section 13 for information on disposal.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Handle under dry protective gas.
Keep containers tightly sealed.
Store in cool, dry place in tightly closed containers.
Ensure good ventilation/exhaustion at the workplace.
Open and handle container with care.

Information about protection against explosions and fires:

Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Do not distill to dryness. Explosive peroxides may form, handle container cautiously.

7.2 Conditions for safe storage, including any incompatibilities Storage

Requirements to be met by storerooms and

containers: Information about storage in one common

storage facility:

Store in cool location.

Store away from oxidizing agents.

Store away from air. Store away from water.

Further information about storage

Store under dry inert gas. This product is moisture sensitive. This product is air sensitive.

Protect from humidity and keep away from water.

Store in cool, dry conditions in well sealed containers.

Avoid contact with air / oxygen (formation of peroxide).

Store in a locked cabinet or with access restricted to technical experts or their assistants.

Check container pressure periodically to prevent explosive peroxides. No further relevant information available.

7.3 Specific end use(s)

SECTION 8: Exposure controls/personal protection

Additional information about design of technical systems:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

8.1 Control parameters
Components with critical values that require
monitoring at the workplace:
Additional information:

Not required.

No data

8.2 Exposure controls

Breathing equipment: Protection of hands:

Material of gloves

Eye protection: Body protection:

Penetration time of glove material

Personal protective equipment
General protective and hygienic measures

The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. Impervious gloves

Impervious gloves Not determined

Tightly sealed safety glasses. Full face protection Protective work clothing.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties General Information

Appearance: Form:

Smell: Not determined Odour threshold: Not determined

(Contd. on page 3)

(Contd. of page 2)

Printing date 02.07.2013 Revision: 25.11.2009

Trade name *n-Propylmagnesium chloride, 1M in MeTHF*

pH-value: Not determined. Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Not determined Not determined Not determined

Flash point: Not determined Inflammability (solid, gaseous)
Ignition temperature:
Decomposition temperature:
Self-inflammability: Not determined. Not determined Not determined Not determined

May form explosive peroxides. Do not distill to dryness. Danger of explosion:

Critical values for explosion: Not determined Lower: Upper: Not determined

Steam pressure: Density Not determined Not determined Vapour density
Vapour density
Evaporation rate
Solubility in / Miscibility with
Water: Not determined. Not determined. Not determined.

Reacts violently Contact with water releases flammable gases Not determined.

Partition coefficient (n-octanol/water):

Viscosity: dynamic:

Not determined. kinematic

Not determined. No further relevant information available. 9.2 Other information

SECTION 10: Stability and reactivity

10.1 Reactivity

Reacts violently with water. In contact with water releases flammable gases which may ignite spontaneously. May form explosive peroxides.

10.2 Chemical stability
Thermal decomposition / conditions to be

10.3 Possibility of hazardous reactions

No decomposition if used and stored according to specifications. Contact with water releases flammable gases Reacts violently with water Forms peroxides Oxidizing agents

Stable under recommended storage conditions.

10.5 Incompatible materials:

Bases Air

10.6 Hazardous decomposition products:

Water/moisture Carbon monoxide and carbon dioxide Hydrogen chloride (HCI)

Metal oxide

No data

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity:

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

LD/LC50 values that are relevant for classification:

Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Sensitization: Causes serious eye damage. No sensitizing effect known. No effects known.

Germ cell mutagenicity:

No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
No effects known. Carcinogenicity:

Reproductive toxicity:

Specific target organ system toxicity - repeated exposure:

posure:

Specific target organ system toxicity - single

Aspiration hazard: Additional toxicological information:

No effects known.

No effects known.

No effects known

To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

SECTION 12: Ecological information

12.1 Toxicity Aquatic toxicity: 12.2 Persistence and degradability No further relevant information available. No further relevant information available. 12.3 Persistence and degradability
12.3 Bioaccumulative potential
12.4 Mobility in soil
Additional ecological information:
General notes: No further relevant information available No further relevant information available

Do not allow material to be released to the environment without proper governmental permits. Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. Avoid transfer into the environment.

12.5 Results of PBT and vPvB assessment PBT:

Not applicable. vPvB: 12.6 Other adverse effects

Not applicable. No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods Recommendation

Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal.

Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations. Safety data sheet according to 1907/2006/EC, Article 31

Printing date 02.07.2013 Revision: 25.11.2009

Trade name n-Propylmagnesium chloride, 1M in MeTHF

UN "Model Regulation":	UN3399, ORGANOMETALLIC SUBSTANCE, LIQUID, WATER-REACTIVE, FLAMMABLE (n-Propylmagnesium chloride/2-methyltetrahydrofuran), 4.3 (3), II
OFOTION 45. Descriptions information	

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Australian Inventory of Chemical Substances Substance is not listed.

Standard for the Uniform Scheduling of Drugs and Poisons National regulations

Water hazard class:

Information about limitation of use:

Substance is not listed.

Employment restrictions concerning young persons must be observed. For use only by technically qualified individuals.

Water hazard class 1 (Self-assessment): slightly hazardous for water.

Other regulations, limitations and prohibitive regulations ELINCS (European List of Notified Chemical

Substances)
Substances of very high concern (SVHC)
according to REACH, Article 57
REACH - Pre-registered substances
15.2 Chemical safety assessment:

Substance is not listed.

Substance is not listed.

Substance is listed.
A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information
Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
