

Safety Data Sheet per OSHA HazCom 2012

(Contd. of page 1)

Product name: 3-(2-Chlorophenyl)-5-methylisoxazole-4-carboxylic acid

Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Extinguishing media Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

8

Conditions for safe storage, including Storage Requirements to be met by storeroon	e. explosions and fires: No information known. g any incompatibilities ns and receptacles: No special requirements. nmon storage facility: Store away from oxidizing agents. nditions: led containers.	
Exposure controls/personal prote		
Additional information about design of Properly operating chemical fume hood	of technical systems: designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that rea Additional information: No data	quire monitoring at the workplace: Not required.	
Protection of hands: Impervious gloves Check protective gloves prior to each us	nandling chemicals should be followed. and feed. working immediately. working environment. spirator when high concentrations are present. se for their proper condition. y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. o minutes) Not determined	
Physical and chemical properties		
Information on basic physical and ch General Information Appearance: Form: Color: Odor: Odor: Odor threshold:	Powder Cream Not determined Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	187-192 °C (369-378 °F) Not determined Not determined	
Flash point:	Not applicable	(Contd. on p
		i conta. on p

Product name: 3-(2-Chlorophenyl)-5-methylisoxazole-4-carboxylic acid

		(Contd. of page 2)		
Flammability (solid, gaseous)	Not determined.	(Conta: of page 2)		
Ignition temperature: Decomposition temperature:	Not determined Not determined			
Auto igniting:	Not determined.			
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.			
Lower:	Not determined			
Upper: Vapor pressure:	Not determined Not applicable.			
Density: Relative density	Not determined Not determined.			
Vapor density	Not applicable.			
Evaporation rate Solubility in / Miscibility with	Not applicable.			
Water:	Insoluble			
Partition coefficient (n-octanol/water Viscosity:				
dynamic: kinematic:	Not applicable. Not applicable.			
Other information	No further relevant information available.			
10 Stability and reactivity				
Reactivity No information known.				
Chemical stability Stable under recom	nmended storage conditions. to be avoided: Decomposition will not occur if used and stored according to specifications.			
Possibility of hazardous reactions N	o dangerous reactions known			
Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents				
Hazardous decomposition products:				
Nitroaen oxides	Carbon monoxide and carbon dioxide			
Hydrogen chloride (HCl)				
11 Toxicological information				
Information on toxicological effects				
Acute toxicity: No effects known. LD/LC50 values that are relevant for	classification: No data			
Skin irritation or corrosion: Causes s Eye irritation or corrosion: Causes se	kin irritation.			
Sensitization: No sensitizing effects kr	nown.			
Germ cell mutagenicity: No effects kr Carcinogenicity: No classification data	nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.			
Reproductive toxicity: No effects know	wn.			
Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: May cause respiratory irritation.				
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known.				
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.			
12 Ecological information				
Toxicity	e a sur			
Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available.				
Bioaccumulative potential No further	relevant information available.			
Mobility in soil No further relevant information available. Additional ecological information:				
General notes: Do not allow material to be released to the environment without proper governmental permits.				
Do not allow material to be released to the environment without proper governmental permits. Avoid transfer into the environment.				
Results of PBT and vPvB assessment PBT: Not applicable.				
VPVB : Not applicable. Other adverse effects No further relevant information available.				
13 Disposal considerations Waste treatment methods				
Recommendation Consult state, local or national regulations to ensure proper disposal.				
Uncleaned packagings: Recommendation: Disposal must be r	nade according to official regulations.			
14 Transport information				
14 Transport information Not a hazardous material for transporta	tion.			
UN-Number DOT, IMDG, IATA	None			
UN proper shipping name DOT, IMDG, IATA	None			
Transport hazard class(es)				
DOT, ADR, IMDG, IATA Class	None			
Packing group DOT, IMDG, IATA				
	None Not applicable			
Environmental hazards: Special precautions for user	Not applicable. Not applicable.
