

Safety Data Sheet per OSHA HazCom 2012

# Product name: Isopropyltriphenylphosphonium iodide

(Contd. of page 1)

Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available.

## 5 Fire-fighting measures

Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Phosphorus oxides Hurdragen iodide (HI) Hydrogen iodide (HI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

### 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 13 for disposal information. See Section 13 for disposal information.

### 7 Handling and storage

r nanuling and storage				
Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed of Ensure good ventilation at the workplace Information about protection against	containers. 9. <b>explosions and fires:</b> No information known.			
Conditions for safe storage, including Storage Requirements to be met by storeroom Information about storage in one com Store away from oxidizing agents. Store in the dark. Further information about storage con Keep container tightly sealed. Store in cool, dry conditions in well seale Protect from exposure to light. Specific end use(s) No further relevant	as and receptacles: No special requirements. mon storage facility: nditions:			
8 Exposure controls/personal prote				
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.				
Components with limit values that require monitoring at the workplace: Not required. Additional information: No data				
Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Protective work clothing.				
9 Physical and chemical properties				
Information on basic physical and che General Information Appearance: Form:	emical properties Powder			
Color: Odor: Odor threshold:	Yellow Not determined Not determined.			
pH-value:	Not applicable.			
Change in condition Melting point/Melting range: Boiling point/Boiling range:	195-197 °C (383-387 °F) Not determined

Product name: Isopropyltriphenylphosphonium iodide				
		(Contd. of page 2)		
Sublimation temperature / start: Flash point:	Not determined Not applicable			
Flash point: Flammability (solid, gaseous) Ignition temperature:	Not determined.			
Decomposition temperature:	Not determined Not determined			
Auto igniting:	Not determined.			
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.			
Lower: Upper:	Not determined Not determined			
Vapor pressure:	Not applicable. Not determined			
Density: Relative density Vener density	Not determined.			
Vapor density Evaporation rate	Not applicable. Not applicable.			
Solubility in / Miscibility with Water:	Not determined			
Partition coefficient (n-octanol/water) Viscosity:				
dynamic:	Not applicable.			
kinematic: Other information	Not applicable. No further relevant information available.			
10 Stability and reactivity				
Reactivity No information known. Chemical stability Stable under recom	nended storage conditions.			
Thermal decomposition / conditions Possibility of hazardous reactions No	nended storage conditions. o be avoided: Decomposition will not occur if used and stored accord dangerous reactions known	ding to specifications.		
Conditions to avoid No further relevan Incompatible materials:	information available.			
Oxidizing agents				
Light Hazardous decomposition products:				
Hazardous decomposition products: Carbon monoxide and carbon dioxide Phosphorus oxides (e.g. P205)				
Hydrogen iodide (Hİ)				
Reproductive toxicity: No effects know Specific target organ system toxicity Aspiration hazard: No effects known. Subacute to chronic toxicity: Prolonged exposure to iodides may cau boils, redness, black and blue spots, his Subacute to chronic toxicity: No effect Subacute to chronic toxicity: Organic phosphorus compounds exhibi exhibiting substantial water reactivity wi compounds are cholinesterase inhibitor can be highly paralytic.	in irritation. ious eye irritation. own. on carcinogenic properties of this material is available from the EPA, n. - <b>repeated exposure:</b> No effects known. - <b>single exposure:</b> May cause respiratory irritation. se skin rash, running nose, headache and irritation of the mucous mer es and blisters. Iodides are readily diffused across the placenta.	embranes. In severe cases the skin may show pimples, e volatile also being respiratory irritants. Those ause severe burns. Some organic phosphorus sions, flaccid paralysis, coma, respiratory failure. They		
12 Ecological information				
Toxicity Aquatic toxicity: No further relevant in	ormation available.			
Pérsistence and degradability No furt Bioaccumulative potential No further	ner relevant information available.			
Mobility in soil No further relevant info Additional ecological information:	nation available.			
General notes:	ho opvironmont without proportion opvironmentalit-			
Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.				
Avoid transfer into the environment. Results of PBT and vPvB assessment				
<b>PBT:</b> Not applicable. <b>vPvB:</b> Not applicable.				
Other adverse effects No further relev	nt information available.			
13 Disposal considerations				
Waste treatment methods Recommendation Consult state, local or national regulations to onsure proper disposal				
Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings:				
Recommendation: Disposal must be n	ade according to official regulations.			
<b>14 Transport information</b> Not a hazardous material for transporta	on			
	л. 	(Contd. on page 4)

# Product name: Isopropyltriphenylphosphonium iodide

	(Contd. of page 3	
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es)		
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.		
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT):	No	

## 15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

Signal word Warning Hazard statements

H315 Causes skin irritation. H319 Causes serious eye irritation

H335 May cause respiratory irritation. Precautionary statements

- Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P405 P501

Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

product must not be used for commercial purposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed.

Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### 16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
