Printing date 02.07.2013 Revision: 21.12.2012

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

4-(Ethoxycarbonyl)butylzinc bromide, 0.5M in THF Trade name Stock number

1.2 Relevant identified uses of the substance

or mixture and uses advised against. Identified use:

No further relevant information available. SU24 Scientific research and development

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Alfa Aesar GmbH & Co.KG
A Johnson Matthey Company
Zeppelinstr. 7b
76185 Karlsruhe / Germany
Tel: +49 (0) 721 84007 280
Fax: +49 (0) 721 84007 300
Email: tech@alfa.com
www.alfa.com

Informing department: 1.4 Emergency telephone number:

Www.ana.com Product safety Tel + +049 (0) 7275 988687-0 Carechem 24: +44 (o) 1235 239 670 (Multi-language emergency number) Poison Information Center Mainz www.giftinfo.uni-mainz.de Telephone: +49(0)6131/19240

**SECTION 2: Hazards identification** 

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

GHS02 flame

Water-react. 2 H261 In contact with water releases flammable gases.

GHS08 health hazard

Carc. 2 H351 Suspected of causing cancer.

GHS05 corrosion

Skin Corr. 1B H314 Causes severe skin burns and eye damage.

STOT SE 3 H335 May cause respiratory irritation.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

C; Corrosive

R34: Causes burns.

Xn; Harmful

R40: Limited evidence of a carcinogenic effect.

Xi; Irritant

R37: Irritating to respiratory system.

👸 F; Highly flammable

R11-15: Highly flammable. Contact with water liberates extremely flammable gases.

May form explosive peroxides. Information concerning particular hazards for human and environment:

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

Other hazards that do not result in classification

2.2 Label elements Labelling according to Regulation (EC) No 1272/2008

Hazard pictograms Signal word

**Hazard statements** 

Hazard-determining components of

labelling:

No information known.

Tetrahydrofuran 4-(Ethoxycarbonyl)butylzinc bromide

Precautionary statements

4-(Ethoxycarbony) putylzinc bromide
H261 In contact with water releases flammable gases.
H314 Causes severe skin burns and eye damage.
H351 Suspected of causing cancer.
H335 May cause respiratory irritation.
P231+P232 Handle under inert gas. Protect from moisture.
P260 Do not breathe dust/fume/gas/mist/vapours/spray.
P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower

The product is classified and labelled according to the CLP regulation. GHS02, GHS05, GHS07, GHS08 Danger

P303+P351+P353 IF ON SKIN (or hair). Remove/Take on immediately all contaminated clothing. Rinse sk with water/shower.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
EUH019 May form explosive peroxides.

Additional information: 2.3 Other hazards Results of PBT and vPvB assessment

PBT

Not applicable. Not applicable. vPvR:

SECTION 3: Composition/information on ingredients

3.2 Mixtures

**Dangerous components:**

Additional information

After skin contact

### SECTION 4: First aid measures

4.1 Description of first aid measures General information

After inhalation

Instantly remove any clothing soiled by the product.
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.
Seek immediate medical advice.

Instantly wash with water and soap and rinse thoroughly.

After eye contact After swallowing 4.2 Most important symptoms and effects,

both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed

seek immediate medical advice Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment.

No further relevant information available. No further relevant information available

## SECTION 5: Firefighting measures

5.1 Extinguishing media Suitable extinguishing agents For safety reasons unsuitable extinguishing

agents
5.2 Special hazards arising from the

substance or mixture

If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide

Hydrogen bromide (HBr)

Metal oxide

Water.

5.3 Advice for firefighters Protective equipment:

Wear self-contained breathing apparatus. Wear full protective suit.

#### SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

6.2 Environmental precautions:

Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
Keep away from ignition sources
Do not allow material to be released to the environment without proper governmental permits.
Do not allow product to reach sewage system or water bodies.

In case of fire, use sand, carbon dioxide or powdered extinguishing agent. Never use water.

Do not allow to enter the ground/soil

6.3 Methods and material for containment

and cleaning up:

Keep away from ignition sources.
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Use neutralizing agent.
Dispose of contaminated material as waste according to item 13.

Ensure adequate ventilation.

Prevention of secondary hazards:

6.4 Reference to other sections

Do not flush with water or aqueous cleansing agents
Keep away from ignition sources.
See Section 7 for information on safe handling
See section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

## SECTION 7: Handling and storage

7.1 Precautions for safe handling

Handle under dry protective gas. Keep containers tightly sealed. Ensure good ventilation/exhaustion at the workplace.

Open and handle container with care.

Information about protection against

explosions and fires:

Protect against electrostatic charges.
Fumes can combine with air to form an explosive mixture.
Do not distill to dryness.

Explosive peroxides may form, handle container cautiously.

## 7.2 Conditions for safe storage, including any incompatibilities

Storage

Requirements to be met by storerooms and

containers:

Information about storage in one common storage facility:

7.3 Specific end use(s)

Refrigerate

Store away from air. Protect from heat. Store away from strong bases. Store away from oxidizing agents.

Further information about storage conditions:

Store under dry inert gas.

This product is air sensitive.

Avoid contact with air / oxygen (formation of peroxide).

Store in a locked cabinet or with access restricted to technical experts or their assistants.

Refrigerate
Check container pressure periodically to prevent explosive peroxides.
No further relevant information available.

# SECTION 8: Exposure controls/personal protection

Additional information about design of technical systems:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

(Contd. on page 3)

Printing date 02.07.2013 Revision: 21.12.2012

#### Trade name 4-(Ethoxycarbonyl)butylzinc bromide, 0.5M in THF (Contd. of page 2) 8.1 Control parameters Components with critical values that require monitoring at the workplace: **109-99-9 Tetrahydrofuran (86,3%)** AGW (Germany) | 150 mg/m³, 50 ppm 2(I);DFG, EU, H, Y PEL (USA) 590 mg/m<sup>3</sup>, 200 ppm Short-term value: 735 mg/m³, 250 ppm Long-term value: 590 mg/m³, 200 ppm Short-term value: 295 mg/m³, 100 ppm Long-term value: 147 mg/m³, 50 ppm REL (USA) TLV (USA) Ingredients with biological limit values: 109-99-9 Tetrahydrofuran (86,3%) BGW (Germany) 2 mg/l Tetrahydrofuran BEI (USA) 2 mg/L urine end of shift Tetrahydrofuran Additional information: No data 8.2 Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Do not inhale dust / smoke / mist. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality Breathing equipment: Protection of hands: and varies from manufacturer to manufacturer. Impervious gloves Material of gloves Penetration time of glove material Eye protection: Not determined Tightly sealed safety glasses. Full face protection Protective work clothing. **Body protection:** SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties **General Information** Appearance: Form: Liauid Colour: Yellow to brown to black Smell: Not determined Odour threshold: Not determined pH-value: Not determined Change in condition Melting point/Melting range: Boiling point/Boiling range: Not determined Not determined Sublimation temperature / start: Inflammability (solid, gaseous) Not determined Not determined. 230 °C Ignition temperature: Decomposition temperature: Not determined Self-inflammability: Product is not selfigniting. May form explosive peroxides. Do not distill to dryness. Danger of explosion: Critical values for explosion: 1,5 Vol % 12,0 Vol % Lower: Upper: Steam pressure at 20 °C: Density at 20 °C Relative density Vapour density Evaporation rate Solubility in / Miscibility with 200 hPa 0,978 g/cm<sup>3</sup> Not determined. Not determined. Not determined. Contact with water releases flammable gases Not determined. Water: Partition coefficient (n-octanol/water): Viscosity: dvnamic: Not determined. Not determined kinematic: Solvent content: Organic solvents: 86,3 % Solids content: 13,7 % 9.2 Other information No further relevant information available SECTION 10: Stability and reactivity 10.1 Reactivity In contact with water releases flammable gases which may ignite spontaneously.

10.2 Chemical stability Thermal decomposition / conditions to be

10.5 Incompatible materials:

avoided: 10.3 Possibility of hazardous reactions

No decomposition if used and stored according to specifications. Reacts with strong oxidizing agents Contact with water releases flammable gases Forms peroxides Air Bases

May form explosive peroxides

Stable under recommended storage conditions.

# SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity:

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of

esophagus and stomach. The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for components in

this product

## LD/LC50 values that are relevant for classification:

109-99-9 Tetrahydrofuran Oral

LD50 1650 mg/kg (rat) Inhalative LC50/2H 72000 mg/m3/2H (rat)

Skin irritation or corrosion: Eye irritation or corrosion: Sensitization: Germ cell mutagenicity:

Carcinogenicity:

Causes severe skin burns Causes serious eye damage.

No sensitizing effect known.

The Registry of Toxic Effects of Chemical Substances (RTECS) contains mutation data for components in this

Suspected of causing cancer.

ACGIH A3: Animal carcinogen: Agent is carcinogenic in experimental animals at a relatively high dose, by route(s) of administration, at site(s), of histologic type(s), or by mechanism(s) not considered relevant to worker exposure. Available epidemologic studies do not confirm an increased risk of cancer in exposed humans.

Available evidence surgects that the capacit is not likely to cause capacit in humans export under uncommenter. Available evidence suggests that the agent is not likely to cause cancer in humans except under uncommon or unlikely routes or levels of exposure.

The Registry of Toxic Effects of Chemical Substances (RTECS) contains tumorigenic and/or neoplastic data for this product.

The Registry of Toxic Effects of Chemical Substances (RTECS) contains reproductive data for components in

this product.

Specific target organ system toxicity repeated exposure:

Specific target organ system toxicity - single

exposure:

Reproductive toxicity:

Aspiration hazard:

**Experience with humans:** 

No effects known.

May cause respiratory irritation.

No effects known. The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version:

Corrosive Irritant

## SECTION 12: Ecological information

12.1 Toxicity Aquatic toxicity:

12.2 Persistence and degradability 12.3 Bioaccumulative potential

12.4 Mobility in soil

Additional ecological information: General notes:

No further relevant information available. No further relevant information available. No further relevant information available. No further relevant information available

Do not allow material to be released to the environment without proper governmental permits. Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. Avoid transfer into the environment.

12.5 Results of PBT and vPvB assessment

PBT: vPvB:

Not applicable.

Not applicable. No further relevant information available. 12.6 Other adverse effects

#### SECTION 13: Disposal considerations

13.1 Waste treatment methods

Recommendation

Hand over to disposers of hazardous waste.

Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal.

Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
