

Safety Data Sheet per OSHA HazCom 2012

Page 2/5 Printing date 11/23/2015 Reviewed on 05/28/2009

(Contd. of page 1)

	(Contd. of page 1)
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 2719-32-6 4-Cyanophenyl isothiocyanate Identification number(s): EC number: 230-323-2	
 4 First-aid measures Description of first aid measures General information Immediately remove any clothing soiled by the product. After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes severe skin burns. Causes severe skin burns. 	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen cyanide (HCN) Sulfur oxides (SOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 13 for disposal information. 	
7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store under dry inert gas. This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.	
	(Contd. on page 3)

Product name: 4-Cyanophenyl isothiocyanate

Remove all soiled and contaminated clo	othing immediately.	(Contd. of page 2)
Wash hands before breaks and at the e	end of work.	
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate Breathing equipment: Use suitable re	working environment. spirator when high concentrations are present.	
Protection of hands:	opirator miori nign concentrations are present.	
Impervious gloves Check protective gloves prior to each u	ise for their proper condition.	
Penetration time of glove material (in	ly depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. n minutes) Not determined	
Eye protection: Tightly sealed goggles		
Full face protection Body protection: Protective work cloth	hing.	
9 Physical and chemical propertie	e	
Information on basic physical and ch		
General Information Appearance:		
Form: Color:	Crystalline powder Cream	
Odor: Odor threshold:	Irritating Not determined.	
pH-value:	Not applicable.	
Change in condition		
Melting point/Melting range: Boiling point/Boiling range:	118-122 °C (244-252 °F) Not determined	
Sublimation temperature / start:	Not determined Not applicable	
Flash point: Flammability (solid, gaseous)	Not determined.	
Ignition temperature: Decomposition temperature:	Not determined Not determined	
Auto igniting: Danger of explosion:	Not determined. Product does not present an explosion hazard.	
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vapor pressure: Density: Delativ:	Not applicable. Not determined	
Relative density Vapor density	Not determined. Not applicable.	
Evaporation rate Solubility in / Miscibility with	Not applicable.	
Water: Hydrolyzes Partition coefficient (n-octanol/water): Not determined.		
Viscosity: dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity Reactivity No information known.		
Chemical stability Stable under recommended storage conditions.		
Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known		
Conditions to avoid No further relevan Incompatible materials:	nt information available.	
Alcohols Amines		
Oxidizing agents Water/moisture		
Hazardous decomposition products: Carbon monoxide and carbon dioxide		
Nitrogen oxides Sulfur oxides (SOx)		
Hydrogen cyanide ´		
11 Toxicological information		
Information on toxicological effects Acute toxicity:		
Harmful if inhaled. Harmful in contact with skin.		
Harmful if swallowed. Danger through skin absorption.		
	ve effect on mouth and throat and to the danger of perforation of esophagus and stomach.	
Skin irritation or corrosion: Causes s		
Eye irritation or corrosion: Causes serious eye damage.		
This product is a lachrymator. Sensitization: No sensitizing effects kr	nown.	
	a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive foxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known.		
Specific target organ system toxicity Aspiration hazard: No effects known.	v - single exposure: No effects known.	
Subacute to chronic toxicity: No effe	cts known.	(Contd. on page 4)
L		U\$A -

Product name: 4-Cyanophenyl isothiocyanate (Contd. of page 3) Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT:** Not applicable. vPvB: Not applicable Other adverse effects No further relevant information available. 13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. 14 Transport information **UN-Number** DOT, IMDG, IATA UN2923 UN proper shipping name DOT Corrosive solids, toxic, n.o.s. (4-Cyanophenyl isothiocyanate) CORROSIVE SOLID, TOXIC, N.O.S. (4-Cyanophenyl isothiocyanate) ĨMDG, IATA Transport hazard class(es) DOT Class 8 Corrosive substances. 8+6.1 Label Class 8 (CT2) Corrosive substances Label IMDG, IATA Class 8 Corrosive substances. Label 8+6.1 Packing group DOT, IMDG, IATA 111 Environmental hazards: Not applicable. Special precautions for user Warning: Corrosive substances Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable. Transport/Additional information: DOT Marine Pollutant (DOT): No UN "Model Regulation": UN2923, Corrosive solids, toxic, n.o.s. (4-Cyanophenyl isothiocyanate), 8 (6.1), III 15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms GHS05 GHS06 Signal word Danger Hazard statements H302+H312 Harmful if swallowed or in contact with skin. H331 Toxic if inhaled. Causes severe skin burns and eye damage. H314 Precautionary statements Peco Do not breathe dust/fume/gas/mist/vapours/spray. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. P405 P501

National regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory. All components of this product are listed on the Canadian Non-Domestic Substances List (NDSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed.

Product name: 4-Cyanophenyl isothiocyanate

(Contd. of page 4)

LISA

Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use observed.

market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
