

Safety Data Sheet per OSHA HazCom 2012

Product name: 5-Amino-2-hydroxypyridine (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Refrigerate Information about storage in one common storage facility: Protect from heat. Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Refrigerate Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid context with the everage and exin Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. **Breathing equipment:** Use suitable respirator when high concentrations are present. Protection of hands: Protection of nands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Powder Color: Dark brown Not determined Odor: Odor threshold: Not determined. pH-value: Not applicable. Change in condition Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: ca 180 °C (ca 356 °F) (dec) Not determined Not determined Not determined. Not determined Not determined (Contd. on page 3)

	Not determined.	
Danger of explosion: Explosion limits:	Not determined.	
Lower:	Not determined	
	Not determined Not applicable.	
Density:	Not determined	
Relative density	Not determined.	
Vapor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with		
Water: Partition coefficient (n-octanol/water):	Not determined	
Viscosity:		
dynamic:	Not applicable.	
	Not applicable. No further relevant information available.	
0 Stability and reactivity Reactivity No information known.		
Chemical stability Stable under recomm	nended storage conditions.	
Thermal decomposition / conditions to	nended storage conditions. De avoided: Decomposition will not occur if used and stored according to specifications.	
Possibility of hazardous reactions Rea Conditions to avoid No further relevant	acts with strong oxidizing agents information available	
Incompatible materials:		
Oxidizing agents		
Heat Heat Heat Heat Heat Heat Heat Heat		
Carbon monoxide and carbon dioxide		
Nitrogen oxides		
1 Toxicological information		
Information on toxicological effects		
Acute toxicity: No effects known. LD/LC50 values that are relevant for cl	lassification: No data	
Skin irritation or corrosion: Causes ski		
Eve irritation or corrosion: Causes seri	ious eye irritation.	
Sensitization: No sensitizing effects kno	Wn.	
Germ cell mutagenicity: No effects know	wn. on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know		
Specific target organ system toxicity -	repeated exposure: No effects known.	
Specific target organ system toxicity -	single exposure: May cause respiratory irritation.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects	s known	
Additional toxicological information: 7	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
2 Ecological information		
Toxicity		
Aquatic toxicity: No further relevant info Persistence and degradability No further	ormation available.	
Persistence and degradability No furth	er relevant information available.	
Bioaccumulative potential No further re Mobility in soil No further relevant inform	Slevant information available. nation available	
Additional ecological information:		
General notes:		
Do not allow material to be released to the Do not allow undiluted product or large of	ne environment without proper governmental permits.	
Avoid transfer into the environment.	uantities to reach ground water, water course or sewage system.	
Results of PBT and vPvB assessment		
PBT: Not applicable. vPvB: Not applicable.		
Other adverse effects No further relevant	nt information available.	
3 Disposal considerations		
Waste treatment methods		
	r national regulations to ensure proper disposal.	
Uncleaned packagings: Recommendation: Disposal must be ma	ade according to official regulations
