

#### Safety Data Sheet acc. to OSHA HCS

Page 1/5 Printing date 01/17/2017 Revision date 01/13/2017

(Contd. on page 2)

### Product name: 1-Methylhomopiperazine

3 Composition/information on ingredients

(Contd. of page 1)

# Chemical characterization: Substances CAS# Description: 4318-37-0 1-Methylhomopiperazine Concentration: ≤100% 4 First-aid measures Description of first aid measures General information Immediately remove any clothing soiled by the product. After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Most important symptoms and effects, both acute and delayed Causes severe skin burns. Harmful if swallowed. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Phosphorus oxides Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. **Prevention of secondary hazards:** Keep away from ignition sources. **Reference to other sections** See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Precautions for sare handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep indition sources away Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. (Contd. on page 3)

# Product name: 1-Methylhomopiperazine

		(Contd. of page 2)	
Wash hands before breaks and at the en Do not inhale dust / smoke / mist.	d of work.		
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. <b>Breathing equipment:</b> Use suitable respirator when high concentrations are present.			
Breathing equipment: Use suitable res Recommended filter device for short t	oirator when high concentrations are present.		
Use a respirator with multi-purpose com	simation (US) or type ABEK (EN 14387) as a backup to engineering controls. Risk assessment should be appropriate. Only use equipment tested and approved under appropriate government standards such as h	performed to	
CEN (EU).	appropriate. Only use equipment tested and approved under appropriate government standards such as r	VIOSH (USA) or	
Protection of hands: Impervious gloves			
Check protective gloves prior to each us The selection of suitable gloves not only	e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.		
Penetration time of glove material (in	minutes) Not determined		
Eve protection: Tightly sealed goggles			
Full face protection Body protection: Protective work clothin	ng.		
9 Physical and chemical properties			
Information on basic physical and che			
General Information Appearance:			
'Form: Odor:	Liquid Not determined		
Odor threshold:	Not determined.		
pH-value: Change in condition	Not determined.		
Melting point/Melting range:	Not determined		
Boiling point/Boiling range: Sublimation temperature / start:	74-75 °C (165-167 °F) (35mm) Not determined		
Flash point:	45 °C (113 °F)		
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined		
Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible.		
Explosion limits: Lower:	Not determined		
Upper: Vapor pressure:	Not determined Not determined		
Density at 20 °C (68 °F): Relative density	0.918 g/cm³ (7.661 lbs/gal) Not determined.		
Vapor density Evaporation rate	Not determined. Not determined.		
Solubility in / Miscibility with			
Water: Partition coefficient (n-octanol/water):	Not determined Not determined.		
Viscosity: dynamic:	Not determined.		
kinematic: Other information	Not determined. No further relevant information available.		
10 Stability and reactivity			
Reactivity No information known. Chemical stability Stable under recomm	nended storage conditions.		
Thermal decomposition / conditions to Possibility of hazardous reactions Rea	nended storage conditions. <b>o be avoided</b> : Decomposition will not occur if used and stored according to specifications. acts with strong oxidizing agents.		
Conditions to avoid No further relevant	information available.		
Incompatible materials: Oxidizing agen Hazardous decomposition products: Carbon monoxide and carbon dioxide	15		
Nitrogen oxides			
Phosphorus oxides (e.g. P2O5) Bismuth oxide			
11 Toxicological information			
Information on toxicological effects			
Acute toxicity: Harmful if swallowed.			
	e effect on mouth and throat and to the danger of perforation of esophagus and stomach.		
Skin irritation or corrosion: Causes se	vere skin burns		
Eye irritation or corrosion: Causes ser Sensitization: No sensitizing effects kno	own.		
Germ cell mutagenicity: No effects kno Carcinogenicity: No classification data	wn. on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.		
Reproductive toxicity: No effects know	n.		
Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.			
Subacute to chronic toxicity: No effect	ts known.		
Carcinogenic categories	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
OSHA-Ca (Occupational Safety & Hea	Ith Administration) Substance is not listed.	USA

12 Ecological information	
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governm Do not allow undiluted product or large quantities to reach ground water, water Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	iental permits. course or sewage system.
13 Disposal considerations	
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	disposal.
14 Transport information	
UN-Number DOT, IMDG, IATA	UN2920
UN proper shipping name DOT	
IMDG, IATA	Corrosive liquids, flammable, n.o.s. (1-Methylhomopiperazine) CORROSIVE LIQUID, FLAMMABLE, N.O.S. (1-Methylhomopiperazine)
Transport hazard class(es) DOT	
Class Label Class Label IMDG, IATA	8 Corrosive substances. 8+3 8 (CF1) Corrosive substances 8+3
Class Label	8 Corrosive substances. 8+3
Packing group DOT, IMDG, IATA	11
Environmental hazards:	Not applicable.
Special precautions for user	Warning: Corrosive substances
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	e Not applicable.
Transport/Additional information:	
DOT Marine Pollutant (DOT):	No
UN "Model Regulation":	UN2920, Corrosive liquids, flammable, n.o.s. (1-Methylhomopiperazine), 8 (3), II
15 Regulatory information Safety, health and environmental regulations/legislation specific for the su GHS label elements Hazard pictograms GHS02 GHS05 GHS07 Signal word Danger Hazard statements	<i>Ibstance or mixture</i> 9 CFR 1910 (OSHA HCS)
Hazard statements H226 Flammable liquid and vapour.	

H226 Hammable liquid and vapour. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage.

 H314 Causes severe skin burns and eye damage.

 Precautionary statements

 P210
 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

 P260
 Do not breathe dust/fume/gas/mist/vapours/spray.

 P280
 Wear protective gloves/protective clothing/eye protection/face protection.

 P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

 P304+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

 P304+P340
 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

 P310
 Immediately call a POISON CENTER/doctor.

 P405
 Store locked up.

 P501
 Dispose of contents/container in accordance with local/regional/national/international regulations.

 National regulations
 Dispose of contents/container in accordance with local/regional/national/international regulations.

National regulations. National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.
