

Safety Data Sheet per OSHA HazCom 2012

1 Identification

Product identifier

(Contd. on page 3)

## Product name: 2-Bromo-5-nitropyridine

(Contd. of page 1) Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Carbon monoxide and carbon diox. Hydrogen bromide (HBr) Nitrogen oxides (NOx) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: . Form: Color: Crystalline powder Yellow Odor: Not determined Odor threshold: Not determined pH-value: Not applicable. Change in condition 136-140 °C (277-284 °F) 145-147 °C (293-297 °F) (10 mmHg) Melting point/Melting range: Boiling point/Boiling range:

## Pr 2-Bromo-5-nitronvriding duct r

Page 3/4 Printing date 11/23/2015 Reviewed on 06/04/2010 ٦

Product name: 2-Bromo-5-nitropyridine		
		(Contd. of page 2)
Sublimation temperature / start: Flash point:	Not determined Not applicable	
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined	
Decomposition temperature:	Not determined Not determined	
Auto igniting: Danger of explosion:	Product does not present an explosion hazard.	
Explosion limits: Lower:	Not determined	
Upper: Vapor pressure:	Not determined	
Density:	Not applicable. Not determined	
Relative density Vapor density	Not determined. Not applicable.	
Evaporation rate Solubility in / Miscibility with	Not applicable.	
Water: Partition coefficient (n-octanol/water):	Insoluble Not determined.	
Viscosity: dynamic:	Not applicable.	
kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known. Chemical stability Stable under recommended storage conditions.		
Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known		
Conditions to avoid No further relevant Incompatible materials: Oxidizing agen	information available.	
Hazardous decomposition products:		
Carbon monoxide and carbon dioxide Hydrogen bromide		
Nitrogen oxides Hydrogen cyanide		
Possibly Hydrogen cyanide (HCN)		
11 Toxicological information		
Information on toxicological effects Acute toxicity:		
Harmful in contact with skin. Harmful if swallowed.		
Danger through skin absorption. LD/LC50 values that are relevant for classification: No data		
Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation.		
Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known.		
Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA. JARC. N.I.P. OSHA or ACGIH.		
Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known.		
Specific target organ system toxicity - single exposure: May cause respiratory irritation. Aspiration hazard: No effects known.		
Subacute to chronic toxicity: No effect Additional toxicological information:	ts known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity		
Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available.		
Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.		
Additional ecological information: General notes:		
Do not allow material to be released to the	ne environment without proper governmental permits.	
Avoid transfer into the environment.	uantities to reach ground water, water course or sewage system.	
Results of PBT and vPvB assessment PBT: Not applicable.		
vPvB: Not applicable. Other adverse effects No further releva	nt information available.	
13 Disposal considerations		
Waste treatment methods		
Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings:		
Recommendation: Disposal must be made according to official regulations.		
14 Transport information Not a hazardous material for transportation.		
UN-Number		
DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
		(Contd. on page 4)

(Contd. on page 4) USA

	Reviewed on 06/04/201
Product name: 2-Bromo-5-nitropyridine	
	(Contd. of page 3
Transport hazard class(es) DOT, ADR, IMDG	
Class IATA Class	None
0/055	None
Packing group DOT, IMDG, IATA	None
Environmental hazards:	Not applicable.
Special precautions for user	Not applicable.
Transport in bulk according to Annex II of MARPOL73/	
Transport/Additional information: DOT	Not dangerous according to the above specifications.
Marine Pollutant (DOT):	No
5 Regulatory information	
Safety, health and environmental regulations/legislatio GHS label elements The product is classified and labeled Hazard pictograms	n specific for the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
$\wedge$	
GHS07	
Signal word Warning	
Hāzard statements H302+H312 Harmful if swallowed or in contact with skin. H315 Causes skin irritation.	
H319 Causes serious eye irritation. H335 May cause respiratory irritation. <b>Precautionary statements</b> P280 Wear protective gloves / protective clot	hina
National regulations	hing. r for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
This product is not listed in the U.S. Environmental Protect to research and development only. This product must be us product must not be used for commercial purposes or in fo SARA Section 313 (specific toxic chemical listings) Sul California Proposition 65	tion Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricte sed by or directly under the supervision of a technically qualified individual as defined by TSCA. This rmulations for commercial purposes. bstance is not listed.
