

Safety Data Sheet per OSHA HazCom 2012

1 Identification Product identifier Product name: 3-Chlorophenoxyacetic acid Stock number: L00939 **CAS Number:** 588-32-9 EC number: 209-616-6 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. Inerrito Fisher Scheman C. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech @alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789. 2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) S. GHS06 Skull and crossbones Acute Tox. 3 H301 Toxic if swallowed. ! GHS07 Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2A H319 Causes serious eye irritation. STOT SE 3 H335 May cause respiratory irritation. Hazards not otherwise classified No information known. Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms R GHS06 Signal word Danger Hazard statements H301 Toxic if swallowed. H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/... P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. P405 P50 WHMIS classification D1B - Toxic material causing immediate and serious toxic effects D2B - Toxic material causing other toxic effects 1 Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)

| Product name: 3-Chlorophenoxyacetic acid   |                                       |
|--|---------------------------------------|
|  | (Contd. of page 1)                    |
| 4 First-aid measures   |                                       |
| Description of first aid measures  |                                       |
| After inhalation<br>Supply fresh air. If required, provide artificial respiration. Keep patient warm.  |                                       |
| Seek îmmediate medical advice.<br>After skin contact   |                                       |
| Immediately wash with water and soap and rinse thoroughly.<br>Seek immediate medical advice.   |                                       |
| After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor.   |                                       |
| After swallowing Seek medical treatment.<br>Information for doctor<br>Most important symptoms and effects, both acute and delayed No further relevant information available.   | · · · · · · · · · · · · · · · · · · · |
| Indication of any immediate medical attention and special treatment needed No further relevant information available.  |                                       |
| 5 Fire-fighting measures   |                                       |
| Extinguishing media  | · · · · · · · · · · · · · · · · · · · |
| Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.<br>Special hazards arising from the substance or mixture   |                                       |
| It this product is involved in a fire, the following can be released:<br>Carbon monoxide and carbon dioxide  | · · · · · · · · · · · · · · · · · · · |
| Hydrogen chloride (HCl)<br>Advice for firefiahters   | · · · · · · · · · · · · · · · · · · · |
| Protective equipment:<br>Wear self-contained respirator.   |                                       |
| Wear fully protective impervious suit.   |                                       |
| 6 Accidental release measures  |                                       |
| Personal precautions, protective equipment and emergency procedures<br>Wear protective equipment. Keep unprotected persons away.   |                                       |
| Ensure adequate ventilation  |                                       |
| Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.<br>Methods and material for containment and cleaning up:<br>Dispanse of antermined material as well as a clean of a |                                       |
| Dispose of contaminated material as waste according to section 13.<br>Ensure adequate ventilation.   | · · · · · · · · · · · · · · · · · · · |
| Prevention of secondary hazards: No special measures required.<br>Reference to other sections  | · · · · · · · · · · · · · · · · · · · |
| See Section 7 for information on safe handling<br>See Section 8 for information on personal protection equipment.<br>See Section 13 for disposal information.  | · · · · · · · · · · · · · · · · · · · |
| See Section 13 for disposal information.   |                                       |
| 7 Handling and storage   |                                       |
| Handling<br>Precautions for safe handling  |                                       |
| Keep container tightly sealed.<br>Store in cool, dry place in tightly closed containers.   |                                       |
| Ensure good ventilation at the workplace.<br>Information about protection against explosions and fires: No information known.  |                                       |
| Conditions for safe storage, including any incompatibilities   |                                       |
| Storage<br>Requirements to be met by storerooms and receptacles: No special requirements.  |                                       |
| Information about storage in one common storage facility: Store away from oxidizing agents.<br>Further information about storage conditions:   |                                       |
| Keep container tightly sealed.<br>Store in cool, dry conditions in well sealed containers.   |                                       |
| Store in cool, ary conditions in well sealed containers.<br>Specific end use(s) No further relevant information available.   |                                       |
| 8 Exposure controls/personal protection  |                                       |
| Additional information about design of technical systems:  |                                       |
| Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.<br>Control parameters  |                                       |
| Components with limit values that require monitoring at the workplace: Not required.<br>Additional information: No data  |                                       |
| Exposure controls  |                                       |
| Personal protective equipment<br>General protective and hygienic measures  |                                       |
| The usual precautionary measures for handling chemicals should be followed.<br>Keep away from foodstuffs, beverages and feed   |                                       |
| Remove all solid and contaminated clothing immediately.<br>Wash hands before breaks and at the end of work.  |                                       |
| Avoid contact with the eves and skin.  |                                       |
| Maintain an ergonomicálly appropriate working environment.<br><b>Breathing equipment:</b> Use suitable respirator when high concentrations are present.  |                                       |
| Protection of hands:<br>Impervious gloves  |                                       |
| Check protective gloves prior to each use for their proper condition.<br>The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.  |                                       |
| Eye protection: Safety glasses   |                                       |
| Body protection: Protective work clothing.   |                                       |
| 9 Physical and chemical properties   |                                       |
| Information on basic physical and chemical properties<br>General Information   |                                       |
| Appearance:<br>Form: Powder  |                                       |
| Color: White<br>Odor: Not determined   |                                       |
|  | (Contd. on page 3)                    |
|  |                                       |
