

1	1 Identification	
	Product identifier Product name: N(alpha)-Boc-D-glutamine	
	Stock number: L08536	
	CAS Number:	
	61348-28-5 Relevant identified uses of the substance or mixture and uses advised against.	
	Identified use: SU24 Scientific research and development	
	Details of the supplier of the safety data sheet Manufacturer/Supplier:	
	Alfa Aesar	
	Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Lill MA 01825 8000	
	Ward Hill, MA 01835-8099 Tel: 800-343-0660	
	Fax: 800-322-4757 Email: tech@alfa.com	
	www.alfa.com	
	Information Department: Health, Safety and Environmental Department Emergency telephone number:	
	During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0)789.
2	2 Hazard(s) identification	
	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
	The substance is not classified according to the Globally Harmonized System (GHS). Hazards not otherwise classified No information known.	
	Label elements	
	GHS label elements Not applicable Hazard pictograms Not applicable	
	Signal word Not applicable Hazard statements Not applicable	
	WHMIS classification Not controlled	
	Classification system HMIS ratings (scale 0-4)	
	(Hazardous Materials Identification System)	
	HEALTH 1 Health (acute effects) = 1 FIRE 1 Flammability = 1	
	REACTIVITY Physical Hazard = 1	
	Other hazards Results of PBT and vPvB assessment	
	PBT: Not applicable.	
	vPvB: Not applicable.

3	3 Composition/information on ingredients Chemical characterization: Substances	
3	Chemical characterization: Substances CAS# Description:	
3	Chemical characterization: Substances	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly.	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
4	Chemical characterization: Substances CA\$# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secting is for the substance or mixture Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After eve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eve contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Settinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefighters	
4	Chemical characterization: Substances CASH Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. It required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Secial hazards arising agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising trom the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen cyanide (HCN) Advice for firefighters Protective equipment: Weat self-containeded respirator	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After rinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Settinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear stuly protective impervious suit.	
4	Chemical characterization: Substances CAS# Description: 61349-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After shin contact Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After sex contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sex medical advice. After sex medical advice. After sex contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sex medical advice. After sex medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture (I this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear suit. B6 Accidental release measures	
4	Chemical characterization: Substances CAS# Description: 61349-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After shin contact Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After sex contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sex medical advice. After sex medical advice. After sex contact Rinse opened eye for several minutes under running water. Then consult a doctor. After sex medical advice. After sex medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture (I this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Possibly Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear suit. B6 Accidental release measures	
4	Chemical characterization: Substances CASH Description: CASH Description: 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After shinalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After syn contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After syn contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After synallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and earbon dioxide. Mittingen oxides (NOX) Prossibly Hydrogen cyanide (HCN) Advice for firefighters Forecettere equipment: Wear self-ootifienter espirator. Wear self-ootifienter espirator. Wear self-ootifienter espirator. Wear self-ootifientery espirator. Wear self-ootifienter espira	
4	Chemical characterization: Substances CAS# Description: 61348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After swallowing Seek medical advice. After swallowing Seek medical advice. After swallowing Seek medical advice. Seek immediate medical advice. After swallowing Seek medical advice. After swallowing Seek medical advice. Seek immediate advice. Seek intervention advice. Seek interventing mediate adv	
4	Chemical characterization: Substances CASH Description: CASH Description: 1348-28-5 N(alpha)-Boc-D-glutamine 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After se contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and erabon dioxide. Mitrogen oxides (NOX) Prossibly Hydrogen cyanide (HCN) Advice for firefighters Fotoective equipment: Wear self-contineed respirator. Wear self-contineed respirator. Wear self-contineed respirator. Wear self-contineed respirator. Wear self-contineed respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions. protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensuremental precautions. So not allow material to be released to the environme	

Product name: N(alpha)-Boc-D-glutamine

See Section 8 for information on persona See Section 13 for disposal information.	l protection equipment.	(Contd. of page 1)		
7 Handling and storage				
Handling				
Precautions for safe handling Keep container tightly sealed. Information about protection against explosions and fires: No information known.				
Conditions for safe storage, including any incompatibilities Storage				
Requirements to be met by storeroom Information about storage in one com Store away from oxidizing agents.	s and receptacles: Refrigerate mon storage facility:			
Protect from heat. Further information about storage conditions:				
Keep container tightly sealed. Refrigerate Specific end use(s) No further relevant i				
8 Exposure controls/personal protection Additional information about design of technical systems:				
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters				
Components with limit values that require monitoring at the workplace: Not required. Additional information: No data				
Exposure controls Personal protective equipment				
General protective and hygienic measures for ha	andling chemicals should be followed			
Keep away from foodstuffs, beverages an Remove all soiled and contaminated cloti	nd feed. hing immediately.			
Wash hands before breaks and at the en Maintain an ergonomically appropriate we	d of work. orking environment.			
Breathing equipment: Use suitable resp Protection of hands:	pirator when high concentrations are present.			
Impervious gloves Check protective gloves prior to each use	e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.			
Penetration time of alove material (in r	ninutes) Not determined			
Eye protection: Safety glasses Body protection: Protective work clothin	ıg.			
9 Physical and chemical properties				
Information on basic physical and che General Information Appearance:	mical properties			
Form: Color:	Powder White			
Odor:	Not determined.			
	Not applicable.			
Change in condition Melting point/Melting range:	117-119 °C (243-246 °F)			
Boiling point/Boiling range:	Not determined			
Flammability (solid, gaseous)	Not determined.			
Decomposition temperature:	Not determined Not determined			
Danger of explosion:	Not determined. Product does not present an explosion hazard.			
Explosion limits:	Not determined			
Upper:	Not determined Not applicable.			
Density:	Not determined			
	Not determined. Not applicable.			
Evaporation rate	Not applicable.			
	Not determined			
Partition coefficient (n-octanol/water): Viscosity:	Not determined.			
dynamic:	Not applicable. Not applicable.			
Other information	Not applicable. No further relevant information available.			
10 Stability and reactivity		i		
Reactivity No information known.				
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.				
Possibility of hazardous reactions No Conditions to avoid No further relevant	dangerous reactions known			
Incompatible materials				

Conditions to avoid No further relevant Incompatible materials: Oxidizing agents Heat Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides

Pr N/alpha)-Boc-D-alutamino duct r

Possibly Hydrogen cyanide (HCN)	(Contd. of page 2,	
11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Germ cell mutagenicity: No effects known. Garcinogenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subscute to chronic toxicity: No effects known. Aspiration hazard: No effects known. Subscute toxicity: No effects known. Aspiration hazard: No effects known. Subscute toxicity: No effects known. Aspiration hazard: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.		
2 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. VPVB: Not applicable. Other adverse effects No further relevant information available.		
13 Disposal considerations Waste treatment methods		
Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.		
14 Transport information Not a hazardous material for transportation.		
UN-Number DOT, IMDG, IATA	None	
UN proper shipping name DOT, IMDG, IATA	None	
Transport hazard class(es)		
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	Mana	
DOT, IMDG, IATA Environmental hazards:	None Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Cod		
Transport/Additional information:	Not dangerous according to the above specifications.	
DOT Marine Pollutant (DOT)	No	
Marine Pollutant (DOT): No 5 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements Not applicable Hazard pictograms Not applicable Hazard statements Not applicable Mational regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must be used for commercial purposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, the Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed.		
Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Su Chemical Safety Assessment: A Chemical Safety Assessment has not been of	bstance is not listed.	
Chemical safety assessment: A Chemical Safety Assessment has not been c	arried out.	

Product name: N(alpha)-Boc-D-glutamine
