

Safety Data Sheet per OSHA HazCom 2012

Reviewed on 05/29/2009
1 Identification
Product identifier
Product name: Benzyl isothiocyanate
Stock number: A15008, L02649 CAS Number: 622-78-6
EC number: 210-753-9
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier:
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.
30 Bond Street Ward Hill, MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757
Email: tech@alfa.com www.alfa.com
Information Department: Health, Safety and Environmental Department Emergency telephone number:
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS06 Skull and crossbones
Acute Tox. 3 H331 Toxic if inhaled.
GHS08 Health hazard
Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. Carc. 2 H351 Suspected of causing cancer.
GHS05 Corrosion
Skin Corr. 1B H314 Causes severe skin burns and eye damage. Eye Dam. 1 H318 Causes serious eye damage.
GHS07
Acute Tox. 4 H302 Harmful if swallowed. Acute Tox. 4 H312 Harmful in contact with skin.
Skin Sens. 1 H317 May cause an allergic skin reaction. Hazards not otherwise classified No information known.
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)
Hazard pictograms
GHS05 GHS08
Signal word Danger Hazard statements
H302+H312 Harmful if swallowed or in contact with skin. H331 Toxic if inhaled.
H314 Causes severe skin burns and eye damage.
H317 Máy cause an allergic skin reaction.
H351 Suspected of causing cancer. Precautionary statements Documents
P260 Do not breathe dust/fume/gas/mist/vapours/spray. P284 In case of inadequate ventilation wear respiratory protection. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification
D1B - Toxic material causing immediate and serious toxic effects D2A - Very toxic material causing other toxic effects E - Corrosive material

	Reviewed on 05/29/2009
Product name: Benzyl isothiocyanate	
Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System) HEALTH 2 Health (acute effects) = 2 FIRE 1 REACTIVITY 1 Physical Hazard = 1 Other hazards Results of PBT and vPvB assessment	(Contd. of page 1)
PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 622-78-6 Benzyl isothiocyanate Identification number(s): EC number: 210-753-9	
 4 First-aid measures Description of first aid measures General information Immediately remove any clothing soiled by the product. After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available. 	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents CO2, sand, extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen cyanide (HCN) Sulfur oxides (SOx) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 7 for information on personal protection equipment. See Section 13 for disposal information. 	
7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from water/moisture. Further information about storage conditions: Store under dry inert gas. This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available.

Exposure controls/personal prote		
Additional information about design of Properly operating chemical fume hood	o f technical systems: designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that red Additional information: No data	quire monitoring at the workplace: Not required.	
Exposure controls Personal protective equipment General protective and hygienic meas The usual precautionary measures for h Keep away from foodstuffs, beverages a Remove all soiled and contaminated to be	lning immedialeiv.	
Wash hands before breaks and at the er Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate w	nd of work. vorking environment. pirator when high concentrations are present.	
Breathing equipment: Use suitable res Protection of hands: Impervious gloves	pirator when high concentrations are present.	
Check protective gloves prior to each us The selection of suitable gloves not only Eye protection: Tightly sealed goggles	e for their proper condition. depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Full face protection Body protection: Protective work clothi	ing.	
Physical and chemical properties		
Information on basic physical and ch General Information Appearance:	emical properties	
Form:	Liquid "	
Color: Odor:	Pale yellow Pungent	
Odor threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 242-243 °C (468-469 °F) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	> 110 °C (> 230 °F) Not determined. Not determined Not determined Not determined.	
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.	
Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density	Not determined Not determined Not determined 1.125 g/cm³ (9.388 lbs/gal) Not determined.	
Vapor density Evaporation rate Solubility in / Miscibility with Water:	Not determined. Not determined. Hydrolyzes	
Valer: Partition coefficient (n-octanol/water). Viscosity: dynamic:	Not determined.	
kinematic: Other information	Not determined. Not determined. No further relevant information available.	
Stability and reactivity		
Reactivity No information known. Chemical stability Stable under recomi Thermal decomposition / conditions t	mended storage conditions. 'o be avoided: Decomposition will not occur if used and stored according to specifications. cyanates may react exothermically with NH, OH or SH groups	

- Alcohols Amines Oxidizing agents Water/moisture **Hazardous decomposition products:** Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen cyanide Sulfur oxides (SOx)

11 Toxicological information

Information on toxicological effects
Acute toxicity:
Harmful if inhaled.
Harmful in contact with skin.
Harmful if swallowed.
Danger through skin absorption.
Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.
LD/LC50 values that are relevant for classification: No data

(Contd. on page 4)

Product name: Benzyl isothiocyanate	
Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes serious eye damage. Sensitization: May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Germ cell mutagenicity: No effects known. Carcinogenicity: Suspected of causing cancer. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Aspiration hazard: No effects known. Other information (about experimental toxicology): Carcinogenic effects have been observed on tests with laboratory animals. Mutagenic effects have been observed on tests with bacteria. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) reports the fo Behavioral - convulsions or effect on seizure threshold.	llowing effects in laboratory animals:
	e and chronic toxicity of this substance is not fully known.
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper govern Do not allow undiluted product or large quantities to reach ground water, wate Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	mental permits. r course or sewage system.
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure prope Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	or disposal.
