

	Identification
	Product identifier Braduct name: L-tert-Loucine methyl ester hydrochloride
	Product name: L-tert-Leucine methyl ester hydrochloride Stock number: H59563
	CAS Number: 63038-27-7
1	Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
	Details of the supplier of the safety data sheet Manufacturer/Supplier:
	Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.
	30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660
	Fax: 800-322-4757 Email: tech@alfa.com
	Information Department: Health, Safety and Environmental Department
	Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2	Hazard(s) identification
	Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified according to the Globally Harmonized System (GHS).
	Hazards not otherwise classified No information known.
	Label elements GHS label elements Not applicable Hazard pictograms Not applicable
	Signal word Not applicable
	Hazard statements Not applicable WHMIS classification Not controlled Classification system
	(HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
	Health (acute effects) = 1 Fiammability = 1
	REACTIVITY ] Physical Házard = 1
	Other hazards Results of PBT and vPvB assessment DPT-Net and tanking the
	PBT: Not applicable. vPvB: Not applicable.
	Composition/information on ingredients
	Chemical characterization: Substances CAS# Description: 63038-27-7 L-tert-Leucine methyl ester hydrochloride
	First-aid measures
	Description of first aid measures
,	After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.
	Seek îmmediate medical advice. After skin contact
,	Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After our contract Pince opened ave for equark imputes under running water. Then consult a destar
	After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor
	Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.
	Fire-fighting measures
	Extinguishing media Suitable axtinguishing agents Carbon diavida, axtinguishing newder or water spray. Fight larger fires with water spray or alcohol resistant feam
,	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture
	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide
	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI)
	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)
	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.
6	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. Accidental release measures
6	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear suff-contained respirator. Mear fully protective impervious suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Wear suff-contained requipment. Keep unprotected persons away.
6	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear self-contained respirator. Wear fully protective impervious suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Ensure adequate ventilation Environmental precautions; Do not allow product to reach sewage system or any water course.
6.	Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Hydrogen chloride (HCI) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

Additional information about design		er minute.
Control parameters Components with limit values that ree The product does not contain any releva Additional information: No data	<b>quire monitoring at the workplace:</b> Int quantities of materials with critical values that have to be monitored at the workplace.	
Use a respirator with type N95 (USA) or purifying respirators are appropriate. Or <b>Protection of hands:</b> Impervious gloves	andling chemicals should be followed. and feed. thing immediately. hd of work. vorking environment. pirator when high concentrations are present. <b>term use:</b> PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be per hy use equipment tested and approved under appropriate government standards. re for their proper condition. ' depends on the material, but also on quality. Quality will vary from manufacturer to manufac <b>minutes</b> ) Not determined	
9 Physical and chemical properties		
Information on basic physical and ch General Information Appearance: Form: Color: Odor: Odor: Odor threshold:	emical properties Powder Pale brown Not determined Not determined.	
pH-value:	Not applicable.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	183 °C (361 °F) Not determined Not determined Not determined. Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate	Not determined Not determined Not applicable. Not determined Not determined. Not determined. Not applicable. Not applicable.	
Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water) Viscosity: dynamic: kinematic:	Not determined	
Other information	No applicable. No further relevant information available.	

## 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents

11 Toxicological information				
Information on toxicological effects				
Acute toxicity: No effects known. LD/LC50 values that are relevant for classification: No data				
Skin irritation or corrosion: May cause irritation				
Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known.				
Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this ma	terial is available from the EPA, IARC, NTP, OSHA or ACGIH.			
Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects kno	wn			
Specific target organ system toxicity - single exposure: No effects known Aspiration hazard: No effects known.				
Subacute to chronic toxicity: No effects known.				
Additional toxicological information: To the best of our knowledge the acut	te and chronic toxicity of this substance is not fully known.			
12 Ecological information				
Toxicity Aquatic toxicity: No further relevant information available.				
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.				
Mobility in soil No further relevant information available.				
Additional ecological information: General notes: Avoid transfer into the environment.				
Results of PBT and vPvB assessment PBT: Not applicable.				
vPvB: Not applicable. Other adverse effects No further relevant information available.				
13 Disposal considerations				
Waste treatment methods Recommendation Consult state, local or national regulations to ensure prope	er disposal.			
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.				
14 Transport information				
UN-Number				
DOT, ADN, IMDG, IATA UN proper shipping name	Not applicable			
DOT, A'DN, IMD'G, ĬATA	Not applicable			
Transport hazard class(es)				
DOT, ADR, ADN, IMDG, IATA Class	Not applicable			
Packing group DOT, IMDG, IATA	Not applicable			
Environmental hazards:	Not applicable.			
Special precautions for user	Not applicable.			
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Co	de Not applicable.			
Transport/Additional information:				
DOT Marine Pollutant (DOT):	No			
UN "Model Regulation":	-			
15 Regulatory information				
Safety, health and environmental regulations/legislation specific for the	substance or mixture			
GHS label elements Not applicable				
Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable				
National regulations				
This product is not listed in the U.S. Environmental Protection Agency Toxic S to research and development only. This product must be used by or directly u	Substances Control Act Chemical Substance Inventory. Use of this pr	oduct is restricted		
National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. This product is not listed on the Canadian Domestic Substances List (DSL) or the Canadian Non-Domestic Substances List (NDSL).				
SARA Section 313 (specific toxic chemical listings) Substance is not listed	SARA Section 313 (specific toxic chemical listings) Substance is not listed.			
California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed.				
Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed.				
Bron 65 - Dovelonmental toxicity fomale Substance is not listed				

Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. (Contd. on page 4)
