See Section 7 for information on safe ha See Section 8 for information on person	andling al protection equipment.	
See Section 13 for disposal information.		
7 Handling and storage		i
7 Handling and storage		
Handling Precautions for safe handling		
Keep container tightly sealed.	containara	
Store in cool, dry place in tightly closed of Ensure good ventilation at the workplace	e.	
Information about protection against	explosions and fires: No information known.	
Conditions for safe storage, including	g any incompatibilities	
Storage Requirements to be met by storeroon	ns and receptacles: No special requirements.	
Information about storage in one com	nmon storage facility: Store away from oxidizing agents.	
Further information about storage con Keep container tightly sealed.		
Store in cool, dry conditions in well seale Specific end use(s) No further relevant	ed containers.	
Specific end use(s) No further relevant		
8 Exposure controls/personal prote	ection	
Additional information about design of	of technical systems:	
	designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that rec	guire monitoring at the workplace:	
The product does not contain any releva	ant quantities of materials with critical values that have to be monitored at the workplace.	
Additional information: No data		
Exposure controls Personal protective equipment		
General protective and hygienic meas	sures	
The usual precautionary measures for he Keen away from foodstuffs, beverages a	iandling chemicals should be followed. and feed	
Remove all soiled and contaminated clo Wash hands before breaks and at the el	thing immediately.	
Wash hands before breaks and at the er Do not inhale dust / smoke / mist.	nd of work.	
Avoid contact with the eves and skin.		
Maintain an ergonomically appropriate w Breathing equipment: Use suitable res	vorking environment. spirator when high concentrations are present.	
Protection of hands:		
Impervious gloves Check protective gloves prior to each us	se for their proper condition.	
The selection of suitable gloves not only	se for their proper condition. / depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Penetration time of glove material (in Eye protection: Safety glasses	minutes) ivot determined	
Body protection: Protective work clothi	ing

1 Toxicological information		
Information on toxicological effects		
Acute toxicity: The Registry of Toxic Fi	ffects of Chemical Substances (RTECS) contains acute toxicity data for components in this product.	
LD/LC50 values that are relevant for c Skin irritation or corrosion: Causes sk	Iassification: No data	
Eye irritation or corrosion: Causes ser	rious eye irritation.	
Sensitization: No sensitizing effects kno Germ cell mutagenicity: No effects kno		
Carcinogenicity: No classification data	on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive toxicity: No effects know	In.	
Specific target organ system toxicity	- repeated exposure: No effects known. - single exposure: No effects known.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect		
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

Safety Data Sheet per OSHA HazCom 2012

Page 4/4 Printing date 11/23/2015 Reviewed on 01/16/2013

Product name: n-Hexyl benzoate	
	(Contd. of page 3)
Transport/Additional information:	
DOT Marine Pollutant (DOT): No	
UN "Model Regulation": -	
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms GHS07	
Signal word Warning Hazard statements H315 Causes skin irritation. H315 Causes serious eye irritation. Precautionary statements P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to a P362 P321 Specific treatment (see on this label). P332+P313 If skin irritation occurs: Get medical advice/attention. P332+P313 If skin irritation occurs: Get medical advice/attention. P332+P313 If specific treatment (see on this label). P316 requestion P322+P313 If specific treatment (see on this label). P332+P313 If skin irritation persists: Get medical advice/attention. National regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical su All components of this product are listed on the Canadian Domestic Substances List (DSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is	ibstance Inventory.
