

# Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 2)

Product name: Gallium(III) nitrate hydrate

# (Contd. of page 1) 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. For safety reasons unsuitable extinguishing agents Halocarbon extinguisher Special hazards arising from the substance or mixture This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. If this product is involved in a fire, the following can be released: Nitrogen oxides (NOV) Nitrogen oxides (NOx) Metal oxide fume Metal oxide fume Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically. Methods and material for containment and cleaning up: Pick up mechanic Prevention of secondary hazards: Acts as an oxidizing agent on organic materials such as wood, paper and fats Keep away from combustible material. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Handle under dry protective gas. Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Substance/product can reduce the ignition temperature of flammable substances. This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. Conditions for safe storage, including any incompatibilities Storage Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from flammable substances. Store away from reducing agents. Do not store with organic materials. Store away from metal powders. Store away from water/moisture. Further information about storage conditions: Store under dw. inert as Further information about storage constituents. Store under dry inert gas. This product is hygroscopic. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if airpurifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. (Contd. on page)

## Product name: Gallium(III) nitrate hydrate

Reviewed on	03/04/201

Product name: Gallium(III) nitrate hydrate			
Protection of hands: Impervious gloves Check protective gloves prior to each us The selection of suitable gloves not only Material of gloves Nitrile rubber, NBR Penetration time of glove material (in Glove thickness 0.11 mm Eye protection: Safety glasses Body protection: Protective work clothi	depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. <b>minutes)</b> 480	(Contd. of page 2)	
9 Physical and chemical properties			
Information on basic physical and che General Information Appearance: Form: Color:	emical properties Various forms (powder/flake/crystalline/beads, etc.) White		
Odor: Odor threshold:	Odorless Not determined.		
pH-value:	Not applicable.		
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	110 °C (230 °F) (dec) Not determined Not determined Contact with combustible material may cause fire. Not determined Not determined Not determined.		
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water:	Not determined Not determined Not applicable. Not determined Not determined. Not applicable. Not applicable. Soluble		
Partition coefficient (n-octanol/water). Viscosity: dynamic: kinematic: Other information	: Not determined. Not applicable. Not applicable. No further relevant information available.		
10 Stability and reactivity Reactivity May intensify fire; oxidizer. Chemical stability Stable under recomm Thermal decomposition / conditions to Possibility of hazardous reactions Reacts with reducing agents Reacts with flammable substances Conditions to avoid No further relevant Incompatible materials: Reducing agents Water/moisture Flammable substances Organic materials Metal powders Hazardous decomposition products: Nitrogen oxides Metal oxide fume	nended storage conditions. <b>o be avoided:</b> Decomposition will not occur if used and stored according to specifications. t information available.		
LD/LC50 values that are relevant for c Oral LD50 4360 mg/kg (mouse) Skin irritation or corrosion: Causes ski Eye irritation or corrosion: Causes sei Sensitization: No sensitizing effects kno	al Substances (RTECS) contains acute toxicity data for this substance. <b>Iassification:</b> (in irritation.		

The following RTECS statement/statements refer to the anhydrous compound: The Registry of Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: The following RTECS statement/statements refer to the anhydrous compound: The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substance. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

12 Ecological information			
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governn Do not allow undiluted product or large quantities to reach ground water, water Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	nental permits. course or sewage system.		
13 Disposal considerations			
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. Recommended cleansing agent: Water, if necessary with cleansing agents.	disposal.
