

Safety Data Sheet per OSHA HazCom 2012

Safety Data Sheet per OSHA HazCom 2012

Product name: (S)-(+)-Tetrahydrofurfurylamine

	(O
After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	(Contd. of page 1)
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns.	
Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures Extinguishing media	
Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Advice for firefighters	
Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up:	
Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent.	
Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources.	
Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
7 Handling and storage Handling	
Precautions for safe handling Keep container tightly sealed. Store in cool duy place in tightly closed containers	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Prevent formation of aerosols.	
Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture.	
Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage	
Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility:	
Store away from oxidizing agents. Store away from water/moisture. Further information about storage conditions:	
This product is hygroscopic. Store under dry inert gas. Keen container tightly sealed	
Store under dry intertigats Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and water. Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away, from foodstuffs, beverages and feed.	
Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eves and skin.	
Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands:	
Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Penetration time of glove material (in minutes) Not determined Eye protection: Tightly sealed goggles	(Control on normal)

9 Physical and chemical properties					
Information on basic physical and chemical properties					
General Information Appearance:					
Form: Color:	Liquid Colorless				
Odor: Odor threshold:	Not determined Not determined.				
pH-value:	Not determined.				
Change in condition					
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 152-153 °C (306-307 °F) Not determined				
Flash point:	45 °C (113 °F) Not determined.				
Flammability (solid, gaseous) Ignition temperature:	Not determined				
Decomposition temperature: Auto igniting:	Not determined Not determined.				
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible.				
Explosion limits: Lower:	Not determined				
Upper: Vapor pressure:	Not determined Not determined				
Density at 20 °C (68 °F):	0.98 g/cm³ (8.178 lbs/gal)				
Relative density Vapor density	Not determined.				
Evaporation rate Solubility in / Miscibility with	Not determined.				
Water:	Fully miscible				
Partition coefficient (n-octanol/water). Viscosity:	: Not determined.				
dynamic: kinematic:	Not determined. Not determined.				
Other information	No further relevant information available.				
Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Water/moisture Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides					
11 Toxicological information					
Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/L C50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes severe skin burns. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.					
12 Ecological information					
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.					
13 Disposal considerations					
Waste treatment methods					
Recommendation Consult state, local c	or national regulations to ensure proper disposal.	(Contd. on page 4) USA			

(Contd. of page 3)

Product name: (S)-(+)-Tetrahydrofurfurylamine

Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. Recommended cleansing agent: Water, if necessary with cleansing agents.

14 Transport information		
UN-Number DOT, IMDG, IATA	UN2943	
UN proper shipping name DOT IMDG, IATA	Tetrahydrofurfurylamine TETRAHYDROFURFURYLAMINE	
Transport hazard class(es)		
DOT		
\		
Class Label	3 Flammable liquids. 3	
Class Label IMDG, IATA	3 (F1) Flammable liquids 3	
e		
Class Label	3 Flammable liquids. 3	
Packing group DOT, IMDG, IATA	111	
Environmental hazards:	Not applicable.	
Special precautions for user	Warning: Flammable liquids	
Transport in bulk according to Annex II of MARPOL73/	78 and the IBC Code Not applicable.	
Transport/Additional information:		
DOT Marine Pollutant (DOT):	No

15 Regulatory information		
Safety, health and environmental regulations/legislatio GHS label elements The product is classified and labeled Hazard pictograms	n specific for the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	

GHS02 GHS05

Signal word Danger

 Hazard statements

 H226 Flammable liquid and vapour.

 H216 Flammable liquid and vapour.

 H314 Causes severe skin burns and eye damage.

 Precautionary statements

 P210
 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

 P260
 Do not breathe dust/fume/gas/mist/vapours/spray.

 P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

 P305+P351+P338 IF IN EVES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

 P405
 Store locked up.

 P501
 Dispose of contents/container in accordance with local/regional/national/international regulations

P501 Dispose of contents/container in accordance with local/regional/national/international regulations. National regulations This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product is restricted to research and development only. This product must be used by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Prop 65 - Developmental toxicity, complexity of the term of the supervision of the term of the supervision of the

market and use must be observed.

Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
