

Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 3)

Product name: 3-(Difluoromethoxy)benzyl bromide (Contd. of page 1) Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Hydrogen bromide (HBr) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from strong bases. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eves and skin Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. **Breathing equipment:** Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Tightly sealed goggles Full face protection Body protection Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Liquid Color: Colorless Odor: Pungent Odor threshold: Not determined. pH-value: Not determined. Change in condition Melting point/Melting range: Boiling point/Boiling range: Not determined 76 °C (169 °F) (1 mmHg)

Product name: 3-(Difluoromethoxy)benzyl bromide

Product name: 3-(Difluoromethoxy))benzyl bromide	
		(Contd. of page
Sublimation temperature / start:	Not determined	
Flash point: Flammability (solid, gaseous)	Not determined Not determined.	
Ignition temperature: Decomposition temperature:	Not determined Not determined	
Auto igniting:	Not determined.	
Danger of explosion:	Product does not present an explos	ion hazard.
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vapor pressure: Density:	Not determined Not determined	
Relative density Vapor density	Not determined. Not determined.	
Evaporation rate	Not determined.	
Solubility in / Miscibility with Water:	Not miscible or difficult to mix	
Partition coefficient (n-octanol/water): Not determined.	
Viscosity: dynamic:	Not determined.	
kinematic: Other information	Not determined. No further relevant information avail	labla
Other Information		
0 Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under recon	mended storage conditions.	t occur if used and stored according to specifications.
Possibility of hazardous reactions N	lo dangerous reactions known	n occur ir useu and stored according to specifications.
Conditions to avoid No further relevant Incompatible materials:	nt information available.

11 Toxicological information		
Information on toxicological effects	a strong corrosive effect on mouth an	d throat and to the danger of perforation of esophagus and stomach.
LD/LC50 values that are relevant for	classification: No data	u lindal and to the danger of perioration of esophagus and stomach.
Skin irritation or corrosion: Causes s Eye irritation or corrosion:	severe skin burns.	
This product is a lachrymator.		
Causes serious eye damage. Sensitization: No sensitizing effects ki	nown	
Germ cell mutagenicity: No effects kr	nown.	
Reproductive foxicity: No effects kno	w/n	aterial is available from the EPA, IARC, NTP, OSHA or ACGIH.
Specific target organ system toxicity Specific target organ system toxicity	/ - repeated exposure: No effects knc	own.
Aspiration hazard: No effects known.	/ - single exposure: No effects known	1.
Subacute to chronic toxicity: No effe	cts known.	te and chronic toxicity of this substance is not fully known.
Additional toxicological information.	To the best of our knowledge the acu
