

# 1 Identification

Product identifier

Product identifier
Product name: Sodium stearate
Stock number: 39648 CAS Number: 822-16-2
EC number:
212-490-5 <b>Relevant identified uses of the substance or mixture and uses advised against.</b> Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier:
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc.
30 Bond Street Ward Hill, MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757
Email: tech@alfa.com www.alfa.com
Information Department: Health, Safety and Environmental Department
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS). Hazards not otherwise classified No information known.
Label elements
GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable WHMIS classification Not controlled
Signal word Not applicable Hazard statements Not applicable
Classification system
HMSI ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1 REACTIVITY I Physical Hazard = 1
Other hazards
Results of PBT and vPvB assessment PBT: Not applicable.
vPvB: Not applicable.
3 Composition/information on ingredients
Chemical characterization: Substances
CAS# Description: 822-16-2 Sodium stearate
Identification number(s): EC number: 212-490-5
4 First-aid measures
Description of first aid measures
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.
Seek immediate medical advice.
After skin contact Immediately wash with water and soap and rinse thoroughly.
Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.
After swallowing Seek medical treatment. Information for doctor
Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Sodium oxide         Advice for firefighters         Protective equipment:
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Sodium oxide         Advice for firefighters
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Sodium oxide         Advice for firefighters         Protective equipment:         Wear self-contained respirator.
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Sodium oxide         Advice for firefighters         Protective equipment:         Wear self-contained respirator.         Wear fully protective impervious suit.         6 Accidental release measures         Personal precautions, protective equipment and emergency procedures
Indication of any immediate medical attention and special treatment needed No further relevant information available.         5 Fire-fighting measures         Extinguishing media         Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         Special hazards arising from the substance or mixture         If this product is involved in a fire, the following can be released:         Carbon monoxide and carbon dioxide         Sodium oxide         Advice for firefighters         Protective equipment:         Wear self-contained respirator.         Wear fully protective impervious suit.         6 Accidental release measures         Personal precautions, protective equipment and emergency procedures         Wear advicetion of resonal average of persons away.         Ensure adequate ventiliation
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sodium oxide Advice for firefighters Protective equipment: Wear fully protective impervious suit. 6 Accidental release measures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically.
Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Sodium oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits.

## Product name: Sodium stearate

Page 2/4 Printing date 06/24/2016 Revision date 06/22/2016

(Contd. of page 1) Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. wash nands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious doves Impervious gloves The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) 480 Glove thickness 0.11 mm Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: . Form: Powder Odor: Odor threshold: Weak Not determined. pH-value: Not applicable. Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Not determined Not determined Not determined Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Not determined. Not determined Not determined Auto igniting: Not determined Danger of explosion: Explosion limits: Not determined. Lower: Not determined Upper: Not determined Vapor pressure: Density: Relative density Not applicable. Not determined Not determined. Vapor density Evaporation rate Not applicable. Not applicable. Solubility in / Miscibility with

 Water:
 Not determined

 Partition coefficient (n-octanol/water):
 Not determined.

 Viscosity:
 Not applicable.

 dynamic:
 Not applicable.

 kinematic:
 Not applicable.

 Other information
 No further relevant information available.

### 10 Stability and reactivity

Reactivity No information known.

Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.

Product name: Sodium stearate	
	(Control of page 2)
Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available.	(Contd. of page 2)
Incompatible materials: Oxidizing agents	
Hazardous decomposition products: Carbon monoxide and carbon dioxide	
Sodium oxide	
11 Toxicological information	
Information on toxicological effects Acute toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS	contains acute toxicity data for components in this product.
Acute toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS, LD/LC50 values that are relevant for classification: No data Skin instation or correction: Nov cause instances	
Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation	
Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known.	
Carcinogenicity: ACGIH A4: Not classifiable as a human carcinogen: Inadequate data on which the Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known	to classify the agent in terms of its carcinogenicity in humans and/or animals.
Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known	n
Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.	·/·
Subacute to chronic toxicity: No effects known.	the transfer of
Additional toxicological information: To the best of our knowledge the acute Carcinogenic categories	and chronic toxicity of this substance is not fully known.
OSHA-Ca (Occupational Safety & Health Administration) Substance is not li	isted.
12 Ecological information	
Toxicity Aquatic toxicity: No further relevant information available.	
Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available.	
Mobility in soil No further relevant information available.	
Additional ecological information: General notes:	
Do not allow material to be released to the environment without proper governm Do not allow undiluted product or large quantities to reach ground water, water	iental permits. course or sewage system.
Avoid transfer into the environment. Results of PBT and vPvB assessment	
PBT: Not applicable. vPvB: Not applicable.	
Other adverse effects No further relevant information available.	
13 Disposal considerations	
Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper	disnosal
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	
14 Transport information UN-Number	
DOT, ADN, IMDG, IATA	Not applicable
UN proper shipping name DOT, ADN, IMDG, IATA	Not applicable
Transport hazard class(es)	
DOT, ADR, ADN, IMDG, IATA Class	Not applicable
Packing group DOT, IMDG, IATA	
DOT, IMDG, IATA Environmental hazards:	Not applicable Not applicable.
Special precautions for user	Not applicable.
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	
Transport/Additional information:	
DOT Marine Pollutant (DOT):	No
UN "Model Regulation":	-
45 Descriptory information	
15 Regulatory information Safety, health and environmental regulations/legislation specific for the su	uhetence or mixture
GHS label elements Not applicable	
Signal word Not applicable Hazard statements Not applicable	
National regulations	
All components of this product are listed in the U.S. Environmental Protection A All components of this product are listed on the Canadian Domestic Substances	gency Toxic Substances Control Act Chemical substance Inventory. s List (DSL).
SARA Section 313 (specific toxic chemical listings) Substance is not listed.	/

An components of mis product are instead of the Canadian Domestic Substance's List (E SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65 Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity, male Substance is not listed. Information about limitation of use: For use only by technically qualified individuals.
