

Safety Data Sheet per OSHA HazCom 2012

1 Identification Product identifier
Product identifier Product name: <u>5-Chloropyridine-3-boronic acid pinacol ester</u>
Stock number: H27079 CAS Number: 865186-94-3
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835-8099
Tel: 800-343-0660 Fax: 800-322-4757
Email: tech@alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department
Emergency telephone number:
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) GHS07
Skin Irrit. 2 H315 Causes skin irritation.
Eye Irrit. 2A H319 Causes serious eye irritation. STOT SE 3 H335 May cause respiratory irritation. Hazards not otherwise classified No information known.
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)
Hazard pictograms
GHS07
Signal word Warning Hazard statements
H315 Causes skin irritation. H319 Causes serious eye irritation.
H335 May cause respiratory irritation. Precautionary statements P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
WHMIS classification D2B - Toxic material causing other toxic effects
$(\underline{\mathbf{T}})$
Classification system HMIS ratings (scale 0-4)
(Hazardouš Materials Identification System) HEALTH I Health (acute effects) = 1 FIRE I Flammability = 1
REACTIVITY 1 Physical Hazard = 1
Other hazards Results of PBT and vPvB assessment PBT: Not applicable.
vPvB: Not applicable. 3 Composition/information on ingredients
Composition/information on ingredients Chemical characterization: Substances CAS# Description:
865186-94-3 5-Chloropyridine-3-boronic acid pinacol ester
4 First-aid measures Description of first aid measures
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.
After skin contact Immediately wash with water and soap and rinse thoroughly.
Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.
(Contd. on page 2) USA

Information for doctor

Product name: 5-Chloropyridine-3-boronic acid pinacol ester

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. (Contd. of page 1)

5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Boron oxide Boron oxide Nitrogen oxides (NOx) Hydrogen chloride (HCl) Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Powder Color: Off-white Not determined Odor: Odor threshold: Not determined pH-value: Not applicable Change in condition Melting point/Melting range: 79-81 °C (174-178 °F) Boiling point/Boiling range: Sublimation temperature / start: Not determined Not determined Flash point: Not applicable Not determined Flammability (solid, gaseous) (Contd. on page 3) USA

Product name: 5-Chloropyridine-3-boronic acid pinacol ester

	(Contd. of page 2)
Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined Not determined.
Danger of explosion:	Product does not present an explosion hazard.
Explosion limits: Lower:	Not determined
Upper: Vapor pressure:	Not determined Not applicable.
Density:	Not determined
Relative density Vapor density	Not determined. Not applicable.
Evaporation rate Solubility in / Miscibility with	Not applicable.
Water:	Not determined
Partition coefficient (n-octanol/water Viscosity:	r): Not determined.
dynamic: kinematic:	Not applicable. Not applicable.
Other information	No further relevant information available.
10 Stability and reactivity	
Reactivity No information known. Chemical stability Stable under record	nmended storage conditions.
Thermal decomposition / conditions	nmended storage conditions. t o be avoided: Decomposition will not occur if used and stored according to specifications.
Possibility of hazardous reactions N Conditions to avoid No further releva	nt information available.
Incompatible materials: Oxidizing age Hazardous decomposition products	ents
Carbon monoxide and carbon dioxide	
Boron oxide Nitrogen oxides	
Hydrogen chloride (HCl) Hydrogen cyanide	
11 Toxicological information	
Information on toxicological effects	
Acute toxicity: No effects known. LD/LC50 values that are relevant for	
Skin irritation or corrosion: Causes a Eye irritation or corrosion: Causes a	
Sensitization: No sensitizing effects k	nown.
Germ cell mutagenicity: No effects ki Carcinogenicity: EPA-I: Data are inac	nown. Iequate for an assessment of human carcinogenic potential.
Reproductive toxicity: No effects kno	wh. y - repeated exposure: No effects known.
Specific target organ system toxicit	y - single exposure: May cause respiratory irritation.
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effe	ects known.
Subacute to chronic toxicity:	
coma. The temperature may become a Additional toxicological information	em. Boron poisoning causes depression of the circulation, persistant vomiting and diarrhea, followed by profound shock and subnormal and a scarletina form rash may cover the entire body. : To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
12 Ecological information	
Toxicity	
Aquatic toxicity: No further relevant in Persistence and degradability No fur	nformation available. ther relevant information available.
Bioaccumulative potential No further Mobility in soil No further relevant info	relevant information available.
Additional ecological information:	ornauon available.
General notes: Do not allow material to be released to	the environment without proper governmental permits.
Do not allow undiluted product or large Avoid transfer into the environment.	quantities to reach ground water, water course or sewage system.
Results of PBT and vPvB assessme	nt
PBT: Not applicable. vPvB: Not applicable.	
Other adverse effects No further rele	vant information available.
13 Disposal considerations	
Waste treatment methods Recommendation Consult state. local	or national regulations to ensure proper disposal.
Uncleaned packagings: Recommendation: Disposal must be
