

Safety Data Sheet per OSHA HazCom 2012

# Product name: 3,5-Difluoro-2-methoxybenzyl bromide (Contd. of page 1) Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Hydrogen bromide (HBr) Advice for firefighters **Protective equipment:** Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious cloves General protective and hygienic measures Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined Eye protection: Tightly sealed goggles Full face protection\_ **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Liquid Colorless Pungent Not determined. Color: Odor: Odor threshold: Not determined. pH-value: Change in condition

 Melting point/Melting range:
 Not determined

 Boiling point/Boiling range:
 Not determined

 Sublimation temperature / start:
 Not determined

(Contd. on page 3)

## Product name: 3,5-Difluoro-2-methoxybenzyl bromide

	(Contd. of page
Flash point:	Not determined
Flammability (solid. gaseous)	Not determined.
Ignition temperature: Decomposition temperature:	Not determined Not determined
Auto igniting:	Not determined.
Danger of explosion:	Product does not present an explosion hazard.
Explosion limits:	
Lower:	Not determined
Upper: Vapor pressure:	Not determined Not determined
Density:	Not determined
Relative density	Not determined. Not determined.
Vapor density Evaporation rate	Not determined.
Solubility in / Miscibility with	
Water: Partition coefficient (n-octanol/wat	Not miscible or difficult to mix er): Not determined
Viscosity:	
dynamic: kinematic:	Not determined. Not determined.
Other information	Not determined. No further relevant information available.
Stability and reactivity	
Reactivity No information known.	
Chemical stability Stable under reco	ommended storage conditions. Is to be avoided: Decomposition will not occur if used and stored according to specifications.
Possibility of hazardous reactions	is to be avoided: Decomposition will not occur il used and stored according to specifications. No dangerous reactions known
Conditions to avoid No further relev	rant information available.
Incompatible materials:	
Oxidizing agents Bases	
Hazardous decomposition product	
Carbon monoxide and carbon dioxide	
Hydrogen fluoride Hydrogen bromide	
Toxicological information	
Information on toxicological effect	S
Acute toxicity Swellowing will lood	
Acute toxicity. Swallowing will lead	to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.
LD/LC50 values that are relevant fo	or classification: No data
LD/LC50 values that are relevant for Skin irritation or corrosion: Causes Eye irritation or corrosion:	or classification: No data
