

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

Page: 1 Compilation date: 11/05/2015 Revision date: SAP Revision No: 1

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: 5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97% CAS number: 231291-14-8

Product code: PC0354

Synonyms: 2-(AMINOMETHYL)-4-FLUOROBENZOTRIFLUORIDE [5-FLUORO-2-(TRIFLUOROMETHYL)PHENYL]METHYLAMINE

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet

Company name: Apollo Scientific Ltd Units 3 & 4 Parkway Denton Manchester M34 3SG UK Tel: 0161 337 9971 Fax: 0161 336 6932

Email: david.tideswell@apolloscientific.co.uk

1.4. Emergency telephone number

Section 2: Hazards identification

2.1. Classification of the substance or mixture

Classification under CLP: Skin Corr. 1B: H314 Classification under CHIP: C: R34 Most important adverse effects: Causes severe skin burns and eye damage.

2.2. Label elements

Label elements:

Hazard statements: H314: Causes severe skin burns and eye damage.

Signal words: Danger

Hazard pictograms: GHS05: Corrosion

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

Precautionary statements: P260: Do not breathe vapours.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P310: Immediately call a POISON CENTER/doctor/.

2.3. Other hazards

PBT: This product is not identified as a PBT/vPvB substance.

Section 3: Composition/information on ingredients

3.1. Substances

Chemical identity: 5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

CAS number: 231291-14-8

Section 4: First aid measures

4.1. Description of first aid measures		
Skin contact:	Remove all contaminated clothes and footwear immediately unless stuck to skin.	
	Drench the affected skin with running water for 10 minutes or longer if substance is still	
	on skin. Transfer to hospital if there are burns or symptoms of poisoning.	
Eye contact:	Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist	
	examination.	
Ingestion:	Wash out mouth with water. Do not induce vomiting. Give 1 cup of water to drink every 10	
	minutes. If unconscious, check for breathing and apply artificial respiration if necessary.	
	If unconscious and breathing is OK, place in the recovery position. Transfer to hospital	
	as soon as possible.	
Inhalation:	Remove casualty from exposure ensuring one's own safety whilst doing so. If	
	unconscious and breathing is OK, place in the recovery position. If conscious, ensure	
	the casualty sits or lies down. If breathing becomes bubbly, have the casualty sit and	
	provide oxygen if available. Transfer to hospital as soon as possible.	
4.2. Most important symptoms a	and effects, both acute and delayed	
Skin contact:	Blistering may occur. Progressive ulceration will occur if treatment is not immediate.	
Eye contact:	Corneal burns may occur. May cause permanent damage.	
Ingestion:	Corrosive burns may appear around the lips. Blood may be vomited. There may be	
	bleeding from the mouth or nose.	
Inhalation:	There may be shortness of breath with a burning sensation in the throat. Exposure may	
	cause coughing or wheezing.	
4.3. Indication of any immediate medical attention and special treatment needed		

Section 5: Fire-fighting measures

Page: 2

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

	Page:
5.1. Extinguishing media	
Extinguishing media:	Carbon dioxide, dry chemical powder, foam. Suitable extinguishing media for the
	surrounding fire should be used. Use water spray to cool containers.
5.2. Special hazards arising from	n the substance or mixture
Exposure hazards:	Corrosive. In combustion emits toxic fumes of carbon dioxide / carbon monoxide.
	Nitrogen oxides (NOx). Hydrogen fluoride (HF).
5.3. Advice for fire-fighters	
Advice for fire-fighters:	Wear self-contained breathing apparatus. Wear protective clothing to prevent contact
Ū	with skin and eyes.
ction 6: Accidental release m	easures
6.1. Personal precautions, prote	ective equipment and emergency procedures
reisonal precautions.	Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access
	to unauthorised personnel. Do not attempt to take action without suitable protective
	clothing - see section 8 of SDS. Turn leaking containers leak-side up to prevent the
	escape of liquid.
6.2. Environmental precautions	
Environmental precautions:	Do not discharge into drains or rivers. Contain the spillage using bunding.
6.3. Methods and material for co	ontainment and cleaning up
Clean-up procedures:	Clean-up should be dealt with only by qualified personnel familiar with the specific
	substance. Absorb into dry earth or sand. Transfer to a closable, labelled salvage
	container for disposal by an appropriate method.
6.4. Reference to other sections	· · · · ·
ction 7: Handling and storag	•
7.1. Precautions for safe handling	ng
Handling requirements:	Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area.
	Do not handle in a confined space. Avoid the formation or spread of mists in the air. Only
	use in fume hood.
7.2. Conditions for safe storage	, including any incompatibilities
Storage conditions:	Store in a cool, well ventilated area. Keep container tightly closed. Air sensitive. Store
	under Argon.
Suitable packaging:	Must only be kept in original packaging.
survey brondenig.	

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

	Page: 4	
7.3. Specific end use(s)		
Specific end use(s):	No data available.	
Section 8: Exposure controls/p	ersonal protection	
8.1. Control parameters		
Workplace exposure limits:	No data available.	
DNEL/PNEC Values		
DNEL / PNEC	No data available.	
8.2. Exposure controls		
Engineering measures:	Ensure there is sufficient ventilation of the area.	
Respiratory protection:	Self-contained breathing apparatus must be available in case of emergency.	
Hand protection:	Impermeable gloves.	
Eye protection:	Tightly fitting safety goggles. Ensure eye bath is to hand.	
Skin protection:	Impermeable protective clothing.	
Section 9: Physical and chemical properties		
9.1. Information on basic physical and chemical properties		
State:	Liquid	
9.2. Other information		
Other information:	No data available.	
Section 10: Stability and reactivity		
10.1. Reactivity		

Reactivity: Stable under recommended transport or storage conditions.

10.2. Chemical stability

Chemical stability: Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

10.4. Conditions to avoid

Conditions to avoid: Heat.

10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Strong acids.

10.6. Hazardous decomposition products

Haz. decomp. products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Nitrogen oxides (NOx). Hydrogen fluoride (HF).

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

Section 11: Toxicological information

11.1. Information on toxicological effects

Relevant hazards for substance:

Hazard	Route	Basis
Skin corrosion/irritation	DRM	Based on test data
Serious eye damage/irritation	OPT	Based on test data

Symptoms / routes of exposure

Skin contact: Blistering may occur. Progressive ulceration will occur if treatment is not immediate.
Eye contact: Corneal burns may occur. May cause permanent damage.
Ingestion: Corrosive burns may appear around the lips. Blood may be vomited. There may be bleeding from the mouth or nose.
Inhalation: There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.

Section 12: Ecological information

12.1. Toxicity

Ecotoxicity values: No data available.

12.2. Persistence and degradability

Persistence and degradability: No data available.

12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

12.4. Mobility in soil

Mobility: No data available.

12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

12.6. Other adverse effects

Other adverse effects: No data available.

Section 13: Disposal considerations

13.1. Waste treatment methods

Disposal operations:	Transfer to a suitable container and arrange for collection by specialised disposal
	company. MATERIAL SHOULD BE DISPOSED OF IN ACCORDANCE WITH LOCAL,
	STATE AND FEDERAL REGULATIONS
Disposal of packaging:	Dispose of as special waste in compliance with local and national regulations Observe
	all federal, state and local environmental regulations.

5-FLUORO-2-(TRIFLUOROMETHYL)BENZYLAMINE 97%

NB: The user's attention is drawn to the possible existence of regional or national

regulations regarding disposal.

Section 14: Transport information

14.1. UN number

UN number: UN2735

14.2. UN proper shipping name

Shipping name: AMINES, LIQUID, CORROSIVE, N.O.S.

14.3. Transport hazard class(es)

Transport class: 8

14.4. Packing group

Packing group: III

14.5. Environmental hazards

Environmentally hazardous: No

Marine pollutant: No

14.6. Special precautions for user

Tunnel code: E

Transport category: 3

Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.2. Chemical Safety Assessment

Chemical safety assessment: A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

Section 16: Other information

Other information

Other information:	This safety data sheet is prepared in accordance with Commission Regulation (EU) No 453/2010.
