

2,4-DICHLORO-3-NITROPYRIDINE

Page: 1 Compilation date: 07/05/2015 Revision date: SAP Revision No: 1

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: 2,4-DICHLORO-3-NITROPYRIDINE

CAS number: 5975-12-2

Product code: OR302491

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet

Company name: Apollo Scientific Ltd Units 3 & 4 Parkway Denton Manchester M34 3SG UK Tel: 0161 337 9971 Fax: 0161 336 6932 Email: david.tideswell@apolloscientific.co.uk

1.4. Emergency telephone number

Section 2: Hazards identification

2.1. Classification of the substance or mixture

Classification under CLP:	Acute Tox. 4: H302+312+332; STOT SE 3: H335; Eye Irrit. 2: H319; Skin Irrit. 2: H315
Classification under CHIP:	Xn: R20/21/22; Xi: R36/37/38
Most important adverse effects:	Harmful if swallowed, in contact with skin or if inhaled. Causes skin irritation. Causes
	serious eye irritation. May cause respiratory irritation.

2.2. Label elements

Label elements:	
Hazard statements:	H302+312+332: Harmful if swallowed, in contact with skin or if inhaled.
	H315: Causes skin irritation.
	H319: Causes serious eye irritation.
	H335: May cause respiratory irritation.
Signal words:	Warning
Hazard pictograms:	GHS07: Exclamation mark

2,4-DICHLORO-3-NITROPYRIDINE

Page: 2

 Precautionary statements:
 P271: Use only outdoors or in a well-ventilated area.

 P260: Do not breathe dust.
 P280: Wear protective gloves/protective clothing/eye protection/face protection.

2.3. Other hazards

PBT: This product is not identified as a PBT/vPvB substance.

Section 3: Composition/information on ingredients

3.1. Substances

Chemical identity: 2,4-DICHLORO-3-NITROPYRIDINE

CAS number: 5975-12-2

Section 4: First aid measures

4.1. Description of first aid mea	sures
Skin contact:	Remove all contaminated clothes and footwear immediately unless stuck to skin.
	Drench the affected skin with running water for 10 minutes or longer if substance is still
	on skin. Consult a doctor.
Eve contact:	Bathe the eye with running water for 15 minutes. Consult a doctor.
-	Wash out mouth with water. Do not induce vomiting. If conscious, give half a litre of water
	to drink immediately. Consult a doctor.
Inhalation:	Remove casualty from exposure ensuring one's own safety whilst doing so. Consult a
	doctor.
4.2. Most important symptoms a	and effects, both acute and delayed
· · · ·	
Skin contact:	There may be irritation and redness at the site of contact.
Eye contact:	There may be irritation and redness. The eyes may water profusely.
Ingestion:	There may be soreness and redness of the mouth and throat. Nausea and stomach
	pain may occur. There may be vomiting.
Inhalation:	There may be irritation of the throat with a feeling of tightness in the chest.
4.3. Indication of any immediate medical attention and special treatment needed	
Section 5: Fire-fighting measures	
5.1. Extinguishing media	

Extinguishing media: Carbon dioxide, dry chemical powder, foam. Suitable extinguishing media for the surrounding fire should be used.

2,4-DICHLORO-3-NITROPYRIDINE

		Page:	3
5.2. Special hazards arising from	m the substance or mixture		
Exposure hazards:	In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Nitrogen oxides		
	(NOx). Hydrogen chloride (HCI).		
5.3. Advice for fire-fighters			
Advice for fire-fighters:	Wear self-contained breathing apparatus. Wear protective clothing to prevent contact		
	with skin and eyes.		
Section 6: Accidental release m	neasures		
6.1. Personal precautions, prote	ective equipment and emergency procedures		
Personal precautions:	Refer to section 8 of SDS for personal protection details. If outside do not approach from		
	downwind. If outside keep bystanders upwind and away from danger point. Mark out the		
	contaminated area with signs and prevent access to unauthorised personnel.		
6.2. Environmental precautions			
Environmental precautions:	Do not discharge into drains or rivers.		
6.3. Methods and material for c	ontainment and cleaning up		
Clean-up procedures:	Transfer to a closable, labelled salvage container for disposal by an appropriate		
	method.		
6.4. Reference to other sections	3		
Section 7: Handling and storag	e		
7.1. Precautions for safe handli	ng		
Handling requirements:	Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area.		
	Do not handle in a confined space. Avoid the formation or spread of dust in the air. Only		
	use in fume hood.		
7.2. Conditions for safe storage	, including any incompatibilities		
Storage conditions:	Store in a cool, well ventilated area. Keep container tightly closed. Recommended		
	storage temp 2-8 °C. Store under Argon.		
Suitable packaging:	Must only be kept in original packaging.		
7.3. Specific end use(s)			
Specific end use(s):	No data available.		
Section 8: Exposure controls/p	ersonal protection		
8.1. Control parameters			

Workplace exposure limits: No data available.

2,4-DICHLORO-3-NITROPYRIDINE

DNEL/PNEC Values DNEL / PNEC No data available. 8.2. Exposure controls Engineering measures: Ensure there is sufficient ventilation of the area. Respiratory protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective clothing. State: Protective clothing. State: Powder 9.2. Other information: No data available. Cection 10: Stability and reactivity Iota available. 10.1. Reactivity: State: recommended transport or storage conditions. 10.2. Chemical stability: Stabe under normal conditions. 10.3. Possibility of hazardous reactions: Hazardous reactions: 10.4. Conditions to avoid Materials to avoid: 10.5. Incompatible materials Material		Page: 4
82.2 Exposure controls Engineering measures: Ensure there is sufficient ventilation of the area. Respiratory protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Safety glasses. Ensure eye bath is to hand. Skin protection: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties 9.2. Other information: No data available. ection 10: Stability and reactivity 10.1. Reactivity 10.1. Reactivity: Stable under recommended transport or storage conditions. 10.2. Chemical stability: Stable under recommended transport or storage conditions. 10.3. Possibility of hazardous reactions Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions. 10.4. Conditions to avoid: Heat. 10.5. Incompatible materials Materials to avoid: Strong oxidising agents. Strong acids. 10.6. Hazardous decomposition products Haz decomp. products: In combustion emits toxic fumes of carbon mioxide. Nitrogen oxides (NOX). Hydrogen chioride (HCI). ection 11: Toxicological information	DNEL/PNEC Values	
Engineering measures: Ensure there is sufficient ventilation of the area. Respiratory protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Safety glasses. Ensure eye bath is to hand. Skin protection: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties State: Powder 9.2. Other information: No data available. ection 10: Stability and reactivity 10.1. Reactivity 10.1. Reactivity Reactivity: Stable under recommended transport or storage conditions. 10.2. Chemical stability Chemical stability: Stable under normal conditions. 10.3. Possibility of hazardous reactions Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions. 10.4. Conditions to avoid Conditions to avoid: Heat. 10.5. Incompatible materials Materials to avoid: Strong oxidising agents. Strong acids. 10.6. Hazardous decomposition products Haz decomp. products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Nitrogen oxides (NOx). Hydrogen chloride (HCC). eetion 11: Toxicological information	DNEL / PNEC	No data available.
Respiratory protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Safety glasses. Ensure eye bath is to hand. Skin protection: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties 9.2. Other information: No data available. other information: No data available. 0.1. Reservivity: Stable under recommended transport or storage conditions. 10.2. Chemical stability Stable under normal conditions. 10.3. Possibility of hazardous reactions Hazardous reactions Hazardous reactions: Hazardous reactions 10.4. Conditions to avoid Heat. 10.5. Incompatible materials Storag oxidising agents. Strong acids. 10.6. Hazardous decomposition products In combustion emits toxic furnes of carbon dioxide / carbon monoxide. Nitrogen oxides (NOX). Hydrogen chloride (HCI).	8.2. Exposure controls	
protective device with particle filter. Hand protection: Protective gloves. Eye protection: Safety glasses. Ensure eye bath is to hand. Skin protectin: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties 9.2. Other information: No data available. ection 10: Stability and reactivity: No data available. etction 10: Stability and reactivity: Stable under recommended transport or storage conditions. 10.2. Chemical stability: Stable under normal conditions. 10.3. Possibility of hazardous reactions Hazardous reactions Hazardous reaction: Hazardous reactions 10.4. Conditions to avoid: Heat. 10.5. Incompatible materials Storag oxidising agents. Strong acids. 10.6. Hazardous decomposition: reduction products 10.6. Hazardous decomposition: Formis toxing fumes of carbon dioxide / carbon monoxide. Nitrogen oxides (NOX). Hydrogen chloride (HCI).	Engineering measures:	Ensure there is sufficient ventilation of the area.
Hand protection: Protective gloves. Eye protection: Safety glasses. Ensure eye bath is to hand. Skin protection: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties State: Powder 9.2. Other information: No data available. ection 10: Stability and reactivity To1. Reactivity Stable under recommended transport or storage conditions. 10.1. Reactivity: Stable under normal conditions. 10.2. Chemical stability: Stable under normal conditions. 10.3. Possibility of hazardous reactions Hazardous reactions 10.4. Conditions to avoid: Heat. 10.5. Incompatible materials Strong oxidising agents. Strong acids. 10.6. Hazardous decomposition products In combustion emits toxic turnes of carbon dioxide / carbon monoxide, Nitrogen oxides (NOx). Hydrogen chloride (HCl).	Respiratory protection:	Self-contained breathing apparatus must be available in case of emergency. Respiratory
Eve protection: Safety glasses. Ensure eve bath is to hand. Skin protection: Protective clothing. ection 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties State: Powder 9.2. Other information No data available. other information: No data available. ection 10: Stability and reactivity Interactivity 10.1. Reactivity Stability conditions. 10.2. Chemical stability: Stability under recommended transport or storage conditions. 10.2. Chemical stability: Stable under normal conditions. 10.3. Possibility of hazardous reactions Interactivity Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions. 10.4. Conditions to avoid Heat. 10.5. Incompatible materials Storag oxidising agents. Strong acids. 10.6. Hazardous decomposition products In combustion emits toxic furmes of carbon dioxide / carbon monoxide. Nitrogen oxides (NOX). Hydrogen chloride (HCI). ection 11: Toxicological information Information (HCI).		protective device with particle filter.

11.1. Information on toxicological effects	ection 11: Toxicological inforr	nation
	11.1. Information on toxicologic	al effects

2,4-DICHLORO-3-NITROPYRIDINE

Relevant hazards for substance:

Hazard	Route	Basis
Acute toxicity (ac. tox. 4)	INH DRM ING	Based on test data
Skin corrosion/irritation	DRM	Based on test data
Serious eye damage/irritation	OPT	Based on test data
STOT-single exposure	INH	Based on test data

Symptoms / routes of exposure

Skin contact: There may be irritation and redness at the site of contact.

Eye contact: There may be irritation and redness. The eyes may water profusely.

Ingestion: There may be soreness and redness of the mouth and throat. Nausea and stomach pain may occur. There may be vomiting.

Inhalation: There may be irritation of the throat with a feeling of tightness in the chest.

Section 12: Ecological information

12.1. Toxicity

Ecotoxicity values: No data available.

12.2. Persistence and degradability

Persistence and degradability: No data available.

12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

12.4. Mobility in soil

Mobility: No data available.

12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

12.6. Other adverse effects

Other adverse effects: No data available.

Section 13: Disposal considerations

13.1. Waste treatment methods	
Disposal operations:	Transfer to a suitable container and arrange for collection by specialised disposal
	company. MATERIAL SHOULD BE DISPOSED OF IN ACCORDANCE WITH LOCAL,
	STATE AND FEDERAL REGULATIONS
Disposal of packaging:	Dispose of as special waste in compliance with local and national regulations Observe
	all federal, state and local environmental regulations.
NB:	The user's attention is drawn to the possible existence of regional or national
	regulations regarding disposal.

2,4-DICHLORO-3-NITROPYRIDINE

Section 14: Transport information

Transport class: This product does not require a classification for transport.

Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.2. Chemical Safety Assessment

Chemical safety assessment: A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

Section 16: Other information

Other information	
Other information:	This safety data sheet is prepared in accordance with Commission Regulation (EU) No 453/2010.

Phrases used in s.2 and s.3:	H302+312+332: Harmful if swallowed, in contact with skin or if inhaled.
	H315: Causes skin irritation.
	H319: Causes serious eye irritation.
	H335: May cause respiratory irritation.
	R20/21/22: Harmful by inhalation, in contact with skin and if swallowed.
	R36/37/38: Irritating to eyes, respiratory system and skin.
Legend to abbreviations:	PNEC = predicted no effect level
	DNEL = derived no effect level
	LD50 = median lethal dose
	LC50 = median lethal concentration
	EC50 = median effective concentration
	IC50 = median inhibitory concentration
	dw = dry weight
	bw = body weight
	cc = closed cup
	oc = open cup
	MUS = mouse
	GPG = guinea pig
	RBT = rabbit
