

# Safety Data Sheet

Release 1.0  
Revision 02/10/2015  
Date of issue 12/12/2016

page 1 of 4

## 1 Identification of the substance

### Identification of the substance

Identification of the substance DL-Homocystine

Additional identification meso-4,4'-Dithiobis(2-aminobutanoic acid)

Biosynth catalog no. H-3000

REACH No. A registration number is not available for this substance as the substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

### Use of the substance/preparation

Identified uses other biochemicals

Restriction on use not for food or drug use, for laboratory use only

Company BIOSYNTH AG  
Rietlistrasse 4  
CH-9422 STAAD

Phone +41 (0)71 858 20 20

Mail welcome@biosynth.ch

### Emergency Number

Phone +41 (0)71 858 20 20 office hours

## 2 Hazards identification

### GHS Labeling

Regulatory List  
EC1272/08 Regulation (EC) 1272/2008 (GHS/CLP)

### Additional Information

Caution! To the best of our knowledge the toxicological properties of this material have not been thoroughly investigated.

## 3 Composition/information on ingredients

### Substance related information

Substance name DL-Homocystine  
Synonymes meso-4,4'-Dithiobis(2-aminobutanoic acid)  
Cas No. [870-93-9]  
Formula  $C_8H_{16}N_2O_4S_2$

## 4 First aid measures

### First Aid: Eye

Immediately flush eyes with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Consult an ophthalmologist.

---

**First Aid: Skin**

Wash immediately with plenty of water and soap for at least 15 minutes. Remove contaminated clothing and shoes. Wash contaminated clothes before reuse. Call a physician.

**First Aid: Ingestion**

Wash out mouth with water provided person is conscious. Call a physician.

**First Aid: Inhalation**

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. Call a physician.

**Hints for Physician: Treatment**

Treat symptomatically.

---

## 5 Firefighting measures

**Extinguishing Media**

**Suitable**

foam, dry extinguishing powder, carbon dioxide (CO<sub>2</sub>), water spray jet

**Hazards During Fire-Fighting**

toxic fumes

**Protective Equipment for Fire-Fighting**

Wear a self-contained breathing apparatus and chemical protective clothing.

**Fire-Fighting/Further Advice**

Do not inhale explosion and combustion gases. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.

---

## 6 Accidental release measures

**Personal Precautions**

Wear breathing apparatus if exposed to vapours/dusts/aerosols. Provide adequate ventilation.

**Environmental Precautions**

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains. Ensure all waste water is collected and treated via a waste water treatment plant.

**Methods for Cleaning or Taking Up**

not available

**Further Accidental Release Measures**

Collect in closed and suitable containers for disposal. Clear contaminated areas thoroughly. Ventilate affected area.

---

## 7 Handling and storage

**Handling**

**Handling advice**

Avoid contact with skin, eyes and clothing. Avoid ingestion and inhalation. Avoid prolonged or repeated exposure. Remove contaminated clothing and wash before reuse. Wash thoroughly after handling.

**Storage**

---

## 8 Exposure controls/personal protection

**Exposure controls**

**Industrial Hygiene**

Mechanical exhaust required. Safety shower and eye shower.

---

### Personal Protective Equipment

#### Respiratory Protection

Wear NIOSH/MSHA or European Standard EN 149 approved respirator.

#### Hand Protection

Wear compatible chemical-resistant gloves to prevent skin exposure.

#### Eye Protection

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA.

#### Body Protection

Wear compatible chemical-resistant gloves and clothing to prevent skin exposure.

#### Advice on Safe Handling

Wash contaminated clothing before reuse. Wear appropriate protective clothing to prevent exposure.

---

## 9 Physical and chemical properties

### Form

powder

### Molar Mass

268,36 g/mol

---

## 10 Stability and reactivity

### Conditions to Avoid

incompatible materials

### Substances to Avoid

strong oxidizers

### Decomposition Products

nitrogen oxides (NO<sub>x</sub>), carbon dioxide (CO<sub>2</sub>), sulphur oxides, carbon monoxide

---

## 11 Toxicological information

### Other Relevant Toxicity Information

We are not aware of any toxicology data.

---

## 12 Ecological Information

### Biodegradation

no data available

### Bioaccumulation

no data available

### Distribution in Environment

no data available

---

## 13 Disposal considerations

### Advice on Disposal and Packaging

#### *Advice on Disposal*

Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and, Dispose of waste according to laws applicable.

#### *Advice on Packaging*

not available

---

## 14 Transport information

### Road Transport (ADR/GGVs)

*not regulated*

### Air Transport (IATA)

*not regulated*

---

## 15 Other regulations

### Other Regulations

not available

---

## 16 Additional information

### GHS Labeling

*Regulatory List*

EC1272/08

Regulation (EC) 1272/2008 (GHS/CLP)
