

SAFETY DATA SHEET

Section 1. Identification

Product Name:	Tetravinylsilane
Product Type:	Liquid.
CAS Number:	1112-55-6.
Product Number:	SI2556
Product Manufacturer:	Ereztech LLC 11555 Medlock Bridge Road, Suite 100 Johns Creek, GA 30097
Product Information:	(888) 658-1221
<u>In case of an emergency:</u>	(888) 658-1221 (for spill, leak, fire or exposure) *** Contact manufacturer for all non-emergency calls.

Section 2. Hazards Identification

Emergency Overview

Appearance/Odor:	Liquid, no data available on color or odor.
Classification:	FLAMMABLE LIQUIDS; - Category 2, H225 SKIN CORROSION/IRRITATION; - Category 2, H315 SERIOUS EYE DAMAGE/IRRITATION; - Category 2A, H319 SPECIFIC ORGAN TOXICITY, SINGLE EXPOSURE; RESPIRATORY TRACT IRRITATION; - Category 3, H335
Signal word:	DANGER
Hazard statements:	H225: Highly flammable liquid and vapor. H315: Causes skin irritation. H319: Causes serious eye irritation. H335: May cause respiratory irritation.
Hazard pictograms:	

Precautionary statements

Prevention:	P210: Keep away from heat/sparks/open flames/hot surfaces – No smoking. P233: Keep container tightly closed. P240: Ground/Bond container and receiving equipment.
--------------------	---

Tetravinylsilane

Safety Data Sheet

Section 2. Hazards Identification

Prevention (cont.):	P241: Use explosion-proof electrical/ventilating/lighting equipment. P242: Use only non-sparking equipment. P243: Take precautionary measures against static discharge. P261: Avoid breathing dust/fumes/gas/mist/vapors/spray. P264: Wash exposed skin thoroughly after handling. P271: Use only outdoors or in a well ventilated area. P280: Wear protective gloves/eye protection/face protection.
Response:	P303 + P361 + P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312: Call a POISON CENTER or doctor/physician if you feel unwell. P332 + P313: If skin irritation occurs: Get medical advice/attention. P337 + P313: If eye irritation persists: Get medical advice/attention. P362: Take off contaminated clothing and wash before reuse. P370 + P378: In case of fire: Use dry chemical powder, foam or CO ₂ for extinction.
Storage:	P403 + P233 + P235: Store in a well-ventilated place. Keep container tightly closed. Keep cool. P405: Store locked up.
Disposal:	P501: Dispose of contents/ container to an approved waste disposal plant.
<u>GHS label elements</u>	
General:	None.
OSHA/HCS status:	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
Hazards not otherwise classified:	None known.

Section 3. Composition/Information on Ingredients

Substances

Formula	: C ₈ H ₁₂ Si
Molecular weight	: 136.27 g/mol
CAS-No.	: 1112-55-6

Tetravinylsilane

Safety Data Sheet

Section 3. Composition/Information on Ingredients

Ingredient Name	%	CAS Number
Tetravinylsilane	<=100	1112-55-6

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First Aid Measures

Description of Necessary First Aid Measures

General Advice:	Move out of dangerous area. Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.
Eye Contact:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue rinsing.
Skin Contact:	Wash off contaminated skin with soap and plenty of water. Get medical attention if irritation develops and persists.
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Closely monitor the victim for signs of respiratory problems, such as difficulty in breathing, coughing, wheezing or pain. In such cases, seek immediate medical attention. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Call a physician or POISON CONTROL CENTER.
Ingestion:	Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a physician or POISON CONTROL CENTER.

Most Important Symptoms/Effects, Acute And Delayed Potential Acute Health Effects

Eye Contact:	May cause slight to mild irritation of the eyes. Symptoms may include stinging, tearing, and redness.
Inhalation:	Inhalation may irritate the respiratory tract. Symptoms may include coughing, wheezing, laryngitis, shortness of breath, headache and nausea. Symptoms may be delayed.
Skin Contact:	May cause slight to mild irritation of skin or contact dermatitis.

Tetravinylsilane

Safety Data Sheet

Section 4. First Aid Measures

Ingestion: No information is available on the acute physiological effects of the ingestion of this compound.

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

Notes to Physician: Treat symptomatically.

Specific Treatments: No specific treatment.

Protection of First Responders: No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

Section 5. Fire Fighting Measures

General Hazards: Highly flammable liquid and vapor.

Suitable Extinguishing Media: Use sand, dry chemical powder, foam or carbon dioxide (CO₂). Suitable extinguishing media for the surrounding fire should be used. Fight larger fires with water spray or alcohol resistant foam. Use water spray to cool containers.

Unsuitable Extinguishing Media: Water.

Unusual Fire and Explosion Hazards: In a fire or if heated, a pressure increase will occur and the container may burst with the risk of a subsequent explosion. Use water spray to cool unopened containers. Contact with water liberates toxic, highly flammable gas.

Product of Combustion: If involved in a fire, this material may emit irritating and toxic fumes. Decomposition products may include carbon oxides and silicone oxides.

Protection of Firefighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

For Non-emergency Personnel: No action shall be taken involving any personal risk or without suitable training. Remove all potential ignition sources. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering spill area.

Tetravinylsilane

Safety Data Sheet

Section 6. Accidental Release Measures

For Non-emergency Personnel (cont.):

Do not touch or walk through spilled material. Wear respiratory protection. Put on appropriate personal protective equipment.

For Emergency Responders:

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental Precautions:

Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for Containment

Small Spill:

Absorb spill with inert liquid-binding material (sand, diatomite, acid/universal binders, sawdust). Sweep up absorbent material and place in an appropriate waste disposal container. Do not flush spill area with water or aqueous cleaning solution. Dispose of via a licensed waste disposal contractor.

Large Spill:

Absorb spill with inert liquid-binding material (sand, diatomite, acid/universal binders, sawdust). Sweep up absorbent material and place in an appropriate waste disposal container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Do not flush spill area with water or aqueous cleaning product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and Storage

Precautions:

Handle under an inert gas. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. Non equilibrium conditions may increase the fire hazard associated with this product. Avoid contact with skin and eyes. Keep container tightly sealed. Avoid breathing vapors, spray or fumes. Avoid prolonged exposure. Provide adequate ventilation. Store in cool, dry place in tightly closed container.

Tetravinylsilane

Safety Data Sheet

Section 7. Handling and Storage

- Protective Measures:** Put on appropriate personal protective equipment (see Section 8). Keep ignition sources away – Do not smoke. Protect against electrostatic discharge. Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- General Occupational Hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Safe Storage Conditions:** Store contents under an inert gas. Contact with water liberates toxic, highly flammable gas. Keep away from flame, sparks, excessive temperatures and open flame. Keep container tightly closed and sealed until ready for use. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (oxidizing agents, heat/fire sources) and food and drink. Store locked up.

Section 8. Exposure Controls/Personal Protection

- Introductory Remarks:** These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.
- Occupational Exposure Limits:** This product, as delivered, contains no substances with occupational exposure limits.
- Engineering Controls:** Properly operating chemical fume hood designed for hazardous/flammable chemicals and having an average face velocity of at least 100 feet per minute is required. Provide an eyewash/shower station.
- Environmental Exposure Controls:** Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Tetravinylsilane

Safety Data Sheet

Section 8. Exposure Controls/Personal Protection

Environmental Exposure Controls: In some cases, fume scrubbers, filters or engineering
(cont.): modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual Protection Measures

Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not inhale dusts. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

Skin Protection

Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Full contact

Material: Neoprene or nitrile rubber.

Tetravinylsilane

Safety Data Sheet

Section 8. Exposure Controls/Personal Protection

Other Skin Protection:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory Protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Section 9. Physical and Chemical Properties

Physical State:	Liquid.
Color:	No data available.
Odor:	No data available.
Odor Threshold:	No data available.
pH:	No data available.
Melting Point:	No data available.
Boiling Point:	130-131 °C (266-268 °F).
Flash Point:	6 °C (43 °F) – closed cup.
Auto-ignition temperature:	No data available.
Specific Gravity:	0.8 g/cm ³ at 25 °C (77 °F)
Vapor Pressure:	No data available.
Vapor Density:	No data available.
Water Solubility:	No data available.
Evaporation Rate:	No data available.
Viscosity:	No data available.
VOC Content:	No data available.

VOCs are calculated following the requirements under 40 CFR, Part 59, Subpart C for Consumer Products and Subpart D for Architectural Coatings.

Section 10. Stability and Reactivity

Reactivity:	No specific data available.
Chemical Stability:	Material is moisture sensitive and should be handled under an inert gas.
Conditions to Avoid:	Heat, ignition sources, contact with water.

Tetravinylsilane

Safety Data Sheet

Section 10. Stability and Reactivity

Incompatible Materials:	Strong oxidizing agents. Strong acids.
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous decomposition products formed under fire conditions: carbon oxides, organic fumes and chromium oxides. In the event of a fire: see section 5.
Possibility of Hazardous Reactions:	Vapors may form explosive mixture with air and with exposure to water/moisture.

Section 11. Toxicological Information

Information on Toxicological Effects

Acute Toxicity	: No specific data available.
Irritation/Corrosion	: No specific data available.
Sensitization	: No specific data available.
Germ Cell Mutagenicity	: No effects known.
Carcinogenicity	
IARC	: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
ACGIH	: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.
NTP	: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.
OSHA	: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.
Reproductive Toxicity	: This product is not expected to cause reproductive or developmental effects.
Teratogenicity	: No specific data available.
Specific Target Organ Toxicity (single exposure)	: Respiratory tract irritation.
Specific Target Organ Toxicity (repeat exposure)	: No specific data available.
Aspiration Hazard	: No specific data available.
Information on the likely routes of exposure	: No specific data available.

Tetravinylsilane

Safety Data Sheet

Section 11. Toxicological Information

Additional Information : To the best of Ereztech LLC's knowledge, the chemical, physical, and toxicological properties of this product have not been thoroughly investigated.

Section 12. Ecological Information

Numerical Measures of Toxicity

Toxicity to Fish : No specific data available.

Toxicity to daphnia and other aquatic invertebrates : No specific data available.

Toxicity to algae : No specific data available.

Persistence and Degradability

Biodegradability : No specific data available.

Bioaccumulative potential : No specific data available.

Mobility in soil : No specific data available.

Other Adverse Effects : An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Section 13. Disposal Considerations

Waste Treatment Methods

Product Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.

Contaminated packaging Empty containers retain product residue (liquid and vapors) and can be dangerous.

Section 14. Transport Information

	DOT	IMDG	IATA
UN Number	UN1993	UN1993	UN1993
UN Proper Shipping Name	FLAMMABLE LIQUID, N.O.S. (Tetravinylsilane)	FLAMMABLE LIQUID, N.O.S. (Tetravinylsilane)	FLAMMABLE LIQUID, N.O.S. (Tetravinylsilane)

Safety Data Sheet

Section 14. Transport Information

- Special Precautions for User** : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
- Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code** : Not applicable.

Section 15. Regulatory Information

TSCA (Toxic Substance Control Act):

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Fire hazard, acute health hazard.

Massachusetts Right To Know Components

No components are subject to Massachusetts Right to Know Act.

Pennsylvania Right To Know Components

	CAS-No.	Revision Date
Tetravinylsilane	1112-55-6	

New Jersey Right To Know Components

	CAS-No.	Revision Date
Tetravinylsilane	1112-55-6	

California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
