

### Revision number: 2 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code: Methyl 4-Cyanobenzoate C1119

For laboratory research purposes.

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

#### Product use: Restrictions on use:

## Company:

CI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Acute Toxicity - Dermal [Category 4] Acute Toxicity - Inhalation [Category 4]

Signal word:

Warning!

Hazard Statement(s):

Harmful if swallowed Harmful in contact with skin Harmful if inhaled

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves and protective clothing. Avoid breathing dusts or mists. Use only outdoors or in a well-ventilated area. If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. Call a poison center or doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance Methyl 4-Cyanobenzoate >98.0%(GC) Emergency telephone number:

3. COMPOSITION/INFORMATION	I ON INGREDIENTS		
CAS Number:	1129-35-7		
Aolecular Weight:	161.16		
Chemical Formula:	C <sub>9</sub> H <sub>7</sub> NO <sub>2</sub>		
Synonyms:	4-Cyanobenzoic Acid Methyl Ester		
4. FIRST-AID MEASURES			
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victi is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved take precautions to protect themselves.		
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and isolate case of contact with substance, immediately flush skin with running symptomatically and supportively. Ensure that medical personnel ar take precautions to protect themselves.	water for at least 20 minutes. Treat	
Eye contact:	If this chemical contacts the eyes, immediately wash (irrigate) the eyes casionally lifting the lower and upper eyelids. If eye irritation persivictim to fresh air. Check for and remove any contact lenses. Keep symptomatically and supportively. Effects of exposure to substance personnel are aware of the material(s) involved and take precaution	sts get medical advice/attention. Move victim warm and quiet. Treat may be delayed. Ensure that medical	
Ingestion:	Harmful if swallowed. Call a physician or Poison Control Center imm method if victim ingested the substance; give artificial respiration wi with a one-way valve or other proper respiratory medical device. Lo belt or waistband. If a person vomits place them in the recovery pos mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat Ensure that medical personnel are aware of the material(s) involved themselves.	nediately. Do not use mouth-to-mouth th the aid of a pocket mask equipped osen tight clothing such as a collar, tie, ition so that vomit will not reenter the symptomatically and supportively.	
ymptoms/effects:			
Acute:	No data available		
Delayed:	No data available		
nmediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, becaus the inhaled material is harmful. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s involved and take precautions to protect themselves.		
5. FIRE-FIGHTING MEASURES			
Suitable extinguishing media:	Dry chemical, CO <sub>2</sub> , sand, earth, water spray or regular foam Consu attempting large scale fire fighting operations.	It with local fire authorities before	
Specific hazards arising from the ch	emical		
Hazardous combustion products:	These products include: Carbon oxides Nitrogen oxides		
Other specific hazards:	Closed containers may explode from heat of a fire.		
Special precautions for fire-fighters:			
neated. Move containers from fire area		aterial. Containers may explode when	
	-righters: reathing apparatus (SCBA). Structural fire fighters' protective clothing provuentions. Wear chemical protective clothing which is specifically recommen uations. Wear chemical protective clothing which is specifically recommen		
6. ACCIDENTAL RELEASE MEA	SURES		
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from damaged containers or spilled material unless wearing appropriate unnecessary personnel to move away. Stop leak if you can do it with Isolate the hazard area and deny entry to unnecessary and unprote Solate the hazard area and deny entry to unnecessary and unprote Solate the hazard area and deny entry to unnecessary and unprote Solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and unprote solate the hazard area and deny entry to unnecessary and un	protective clothing (Section 8). Warn hout risk. Ensure adequate ventilation. cted personnel.	
Personal protective equipment:	Safety glasses. Lab coat. Dust respirator. Be sure to use a MSHA/N equivalent. Wear protective gloves (nitrile)	IIOSH approved respirator or	

equivalent. Wear protective gloves (nitrile). Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or Emergency procedures:

confined areas; dike if needed.

# 6. ACCIDENTAL RELEASE MEASURES

# Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Avoid contact with skin. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and
	open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using d not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

# Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Slightly pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	68°C (154°F) 142°C (288°F)/1.6kPa No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temper: Flammability or expl Lower: Upper:	

Solubility(ies): Soluble: Methanol

# 10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Oxidizing agents No data available

# 11. TOXICOLOGICAL INFORMATION

Acute Toxicity: No data available				
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
<b>Respiratory or skin sensitization:</b> No data available				
Germ cell mutagenicity: No data available				
Carcinogenicity:				
No data available				
IARC: No data available	NTP:	No data available	OSHA:	No data available
Reproductive toxicity: No data available				
Routes of Exposure: Symptoms related to exposure: Overexposure may result in serious illnes Potential Health Effects: No specific information available; skin an Target organ(s): 12. ECOLOGICAL INFORMATION	ss or death.	ntact, Ingestion, Skin contact. Ilt in irriatation. May be harmi		d.

# 15. REGULATORY INFORMATION

## Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

#### Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
