Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales@tciamerica.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

For laboratory research purposes.

Not for drug or household use.

Signal word:

Warning!

None

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention] [Response]

> [Storage] [Disposal]

Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: CAS Number: Molecular Weight: Chemical Formula: Synonyms: Substance 3,5-Dimethylphenylboronic Acid (contains varying amounts of Anhydride) 172975-69-8 149.98 C₈H₁₁BO₂ 3,5-Dimethylbenzeneboronic Acid , m-Xylene-5-boronic Acid

| 4. FIRST-AID MEASURES | | | |
|---|--|--|--|
| | | | |
| Inhalation: | Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved an the preservice to protect the preserve. | | |
| Skin contact: | take precautions to protect themselves. If skin irritation occurs get medical advice/attention. Remove and wash contaminated clothing befor use. In case of contact with substance, immediately flush skin with running water for at least 20 mir Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. | | |
| Eye contact: | IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects o exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. | | |
| Ingestion: | Do not induce vomiting with out medical advice. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. | | |
| Symptoms/effects: | | | |
| Acute: Delayed: | Redness. No data available | | |
| Immediate medical attention: | If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to pro- themselves. | | |
| 5. FIRE-FIGHTING MEASURES | | | |
| Suitable extinguishing media: | Dry chemical, CO ₂ , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations. | | |
| Specific hazards arising from the che Hazardous combustion products: Other specific hazards: | These products include: Carbon oxides Borates Closed containers may explode from heat of a fire. | | |
| heated. Move containers from fire area i Special protective equipment for fire- Wear positive pressure self-contained b ONLY; it may not be effective in spill situ | | | |
| provide little or no thermal protection. | | | |
| 6. ACCIDENTAL RELEASE MEAS | URES | | |
| Personal precautions: | Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not to damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Wa unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilat Isolate the hazard area and deny entry to unnecessary and unprotected personnel. | | |
| Personal protective equipment: | Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile). | | |
| Emergency procedures: | Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas: dike if needed | | |

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Environmental precautions: Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined

confined areas; dike if needed.

areas; dike if needed.

| | sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear |
|------------------------------|--|
| | suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep |
| | away from sources of ignition. |
| Conditions for safe storage: | Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. |
| | Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid |
| | prolonged storage periods. |
| Storage incompatibilities: | Store away from oxidizing agents |
| 5 | |

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment

Respiratory protection: Hand protection: Eye protection: Skin and body protection: Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Nitrile gloves. Safety glasses. Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical state (20°C): Form: Color: Odor: Odor threshold: | Solid Crystal - Powder White - Pale yellow No data available No data available | | |
|--|--|--|--|
| Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic viscosity: | 237°C (459°F) No data available No data available No data available No data available No data available | pH: Vapor pressure: Vapor density: Dynamic Viscosity: | No data available No data available No data available No data available |
| Partition coefficient: n-octanol/water (log Pow) | No data available | Evaporation rate: (Butyl Acetate = 1) | No data available |
| Flash point: Flammability (solid, gas): | No data available No data available | Autoignition temperature: Flammability or explosive limits: Lower: No data ava Upper: No data ava | ilable |

Solubility(ies): Water: Slightly soluble Soluble: Methanol

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Oxidizing agents No data available

11. TOXICOLOGICAL INFORMATION

RTECS Number: No data available

| 13. DISPOSAL CONSIDERATIONS | Description of the second state of the second | adamal Otata and I |
| Disposal of product: | Recycle to process if possible. It is the generator's responsibility to comply with F rules and regulations. You may be able to dissolve or mix material with a combus chemical incinerator equipped with an afterburner and scrubber system. This sec assistance but does not replace these laws, nor does compliance in accordance regulatory compliance according to the law. US EPA guidelines for Identification Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter water ways, or the soil. | tible solvent and burn in a tion is intended to provide with this section ensure and Listing of Hazardous |
| Disposal of container: | Dispose of as unused product. Do not re-use empty containers. | |
| Other considerations: | Observe all federal, state and local regulations when disposing of the substance. | |
| 14. TRANSPORT INFORMATION | | |
| DOT (US) | Non-hazardous for transportation. | |
| IATA | Non-hazardous for transportation. | |
| IMDG | Non-hazardous for transportation. | |
| | | |

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

TCI AMERICA

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

HMIS Classification:

0 0 0

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

16. OTHER INFORMATION

Revision date: 11/18/2013

Revision number: 1

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
