

Revision number: 2 Revision date: 10/06/2014

1. IDENTIFICATION

Product name: Product code: Sodium 2,4-Dichlorophenoxyacetate Monohydrate D1319

TCI AMERICA

SAFETY DATA SHEET

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4]

Warning!

Harmful if swallowed

Signal word:

Hazard Statement(s):

.

Precautionary Statement(s): [Prevention] [Response] [Storage] [Disposal]

Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. If swallowed: Immediately call a poison center or doctor. Rinse mouth. None Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: CAS Number: Molecular Weight: Chemical Formula: Synonyms: $\label{eq:substance} \begin{array}{l} Substance\\ Sodium 2,4-Dichlorophenoxyacetate Monohydrate\\ >98.0\%(HPLC)(T)\\ 2702-72-9\\ 243.01(Anh)\\ C_8H_5Cl_2NaO_3\cdot H_2O\\ 2,4-Dichlorophenoxyacetic Acid Sodium Salt Monohydrate , Na-2,4-D Monohydrate\\ \end{array}$

4. FIRST-AID MEASURES

For laboratory research purposes.

Not for drug or household use.

-	Emergency telephone number: Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) Responsible department: TCI America Environmental Health Safety and Security
	Environmental Health Safety and Security +1- 503-286-7624

<i>4. FIRST-AID MEASURES</i> Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and		
Inhalation:	is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat		
	take precautions to protect themselves.		
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Eye contact:	If this chemical contacts the eyes, immediately wash (irrigate) the eyes with large amounts of water, occasionally lifting the lower and upper eyelids. If eye irritation persists get medical advice/attention. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Harmful if swallowed. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Ingestion:			
Symptoms/effects:			
Acute: Delayed:	No data available No data available		
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, because the inhaled material is harmful. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
5. FIRE-FIGHTING MEASURES			
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations.		
Specific hazards arising from the chemic Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Halogenated compounds Metallic oxides WARNING: Highly toxic HCI gas is produced during combustion.		
heated. Move containers from fire area if you Special protective equipment for fire-figh Wear positive pressure self-contained breat	nters: hing apparatus (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situations		
only; it may not be effective in spill situation provide little or no thermal protection.	ons. Wear chemical protective clothing which is specifically recommended by the manufacturer. It may		
6. ACCIDENTAL RELEASE MEASUR	2ES		
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.		
Personal protective equipment:	Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Safety glasses. Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or		
	equivalent. Wear protective gloves (nitrile).		

Methods and materials for containment and cleaning up: ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Environmental precautions:

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

7. HANDLING AND STORAGE

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment				
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.			
Hand protection:	Wear protective gloves.			
Eye protection:	Safety glasses.			
Skin and body protection:	Lab coat.			

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Pale reddish yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	216°C (421°F) No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P _{ow})	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limits: Lower: No data avai Upper: No data avai	

Solubility(ies):

Water: Soluble (33.5g/100g, 20°C)

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong oxidizing agents No data available

11. TOXICOLOGICAL INFORMATION

RTECS Number: AG8925000

Sodium 2,4-Dichlorophenoxyacetate Monohydrate		Page 4 of 5				
Acute Toxicity: ihl-man TCLo:23 mg/m ³ /3Y-I	ipr-rat LD50:424 mg/kg					
orl-rat LD50:555 mg/kg	skn-rbt LD50:>2 g/kg					
Skin corrosion/irritation: No data available						
Serious eye damage/irritation: No data available						
Respiratory or skin sensitization: No data available						
Germ cell mutagenicity: dns-ckn-oth 2500 umol/L	mrc-smc 300 mg/L					
Carcinogenicity:						
No data available						
IARC: No data available	NTP:No data availableOSHA:No data available					
Reproductive toxicity: orl-rat TDLo:100 ug/kg(10D preg)						
Routes of Exposure: Inhalation, Eye contact, Ingestion. Symptoms related to exposure: Overexposure may result in serious illness or death. Potential Health Effects: No specific information available; skin and eye contact may result in irritatation. May be harmful if inhaled or ingested. Target organ(s): No data available Iterative Iterative Contractive No data available Fish: No data available						
Crustacea: Algae:	No data available No data available					
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): Henry's Law: constant (PaM ³ /mol)	No data available No data available No data available No data available No data available No data available					
13. DISPOSAL CONSIDERATIONS						
Disposal of product:Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and rules and regulations. You may be able to dissolve or mix material with a combustible solvent and I chemical incinerator equipped with an afterburner and scrubber system. This section is intended to assistance but does not replace these laws, nor does compliance in accordance with this section e regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Haz Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment water ways, or the soil.Disposal of container:Dispose of as unused product. Do not re-use empty containers.						
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.					
14. TRANSPORT INFORMATION						
DOT (US)	Non-hazardous for transportation.					
IATA	Non-hazardous for transportation.					

14. TRANSPORT INFORMATION IMDG

Non-hazardous for transportation.

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.): This product is ON the EPA Toxic Substances Control Act (TSCA) inventory.

16. OTHER INFORMATION

Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
