

### Revision number: 2 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code: (S)-(-)-4-Amino-2-hydroxybutyric Acid A1438

For laboratory research purposes.

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

Product use: Restrictions on use:

## Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

None

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention] [Response]

> [Storage] [Disposal]

Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: CAS Number: Molecular Weight: Chemical Formula: Substance (S)-(-)-4-Amino-2-hydroxybutyric Acid >98.0%(T) 40371-51-5 119.12 C<sub>4</sub>H<sub>9</sub>NO<sub>3</sub>

| 4. FIRST-AID MEASURES  |  |
|--|--|
| Inhalation:  | Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victim<br>is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat<br>symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and  |
| Skin contact:  | take precautions to protect themselves.<br>If skin irritation occurs get medical advice/attention. Remove and wash contaminated clothing before re-<br>use. In case of contact with substance, immediately flush skin with running water for at least 20 minutes.<br>Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s)<br>involved and take precautions to protect themselves.  |
| Eye contact:   | IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects o exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s)  |
| Ingestion:   | involved and take precautions to protect themselves.<br>Do not induce vomiting with out medical advice. If swallowed, seek medical advice immediately and show<br>the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial<br>respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory<br>medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them<br>in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm<br>and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the<br>material(s) involved and take precautions to protect themselves. |
| Symptoms/effects:  |  |
| Acute:<br>Delayed:   | Redness.<br>No data available  |
| mmediate medical attention:  | If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the<br>injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect<br>themselves.   |
| 5. FIRE-FIGHTING MEASURES  |  |
| Suitable extinguishing media:  | Dry chemical, CO <sub>2</sub> , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations.   |
| Specific hazards arising from the che  |  |
| Hazardous combustion products:<br>Other specific hazards:  | These products include: Carbon oxides Nitrogen oxides<br>Closed containers may explode from heat of a fire.  |
| neated. Move containers from fire area if<br>Special protective equipment for fire-f<br>Near positive pressure self-contained br |  |
| 6. ACCIDENTAL RELEASE MEAS   | URES   |
| Personal precautions:  | Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.  |
| Personal protective equipment:   | Isolate the hazard area and deny entry to unnecessary and unprotected personnel.<br>Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust<br>respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves<br>(nitrile).  |
| Emergency procedures:  | Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing   |

# Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

confined areas; dike if needed.

area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or

Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

**TCI AMERICA** 

| Precautions for safe handling: | Avoid inhalation of vapor or mist. Avoid contact with skin and eyes. Good general ventilation should be<br>sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear                       |
|--------------------------------|---|
|                                | suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.   |
| Conditions for safe storage:   | Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles.<br>Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid<br>prolonged storage periods. |
| Storage incompatibilities:     | Store away from oxidizing agents  |

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

### Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

#### Personal protective equipment

Respiratory protection: Hand protection: Eye protection: Skin and body protection: Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Nitrile gloves. Safety glasses. Lab coat.

This section is intended to provide compliance in accordance with this section ensure uidelines for Identification and Listing of Hazardous |
| Disposal of container:   | Dispose of as unused product. Do not re-use empty co   |  |
| Other considerations:  | Observe all federal, state and local regulations when d  | lisposing of the substance.  |
| 14. TRANSPORT INFORMATION  |  |  |
| DOT (US)   | Non-hazardous for transportation.  |  |
| ΙΑΤΑ   | Non-hazardous for transportation.  |  |
| IMDG   | Non-hazardous for transportation.  |  |
|  |  |  |

# Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

### 16. OTHER INFORMATION

## Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
