

#### **Revision number: 2** Revision date: 10/06/2014

#### **IDENTIFICATION** 1.

Product name: Product code:

3-Cyano-6-methyl-2-pyridone C2210

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 3] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Danger!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Toxic if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal]

Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and

wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. Store locked up.

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent:

Substance

For laboratory research purposes. Not for drug or household use.

**TCI AMERICA**

3-Cyano-6-methyl-2-pyridone >98.0%(T)

3-Cyano-6-methyl-2-pyridone	TCI AMERICA	Page 2 of 5
3. COMPOSITION/INFORMATION	ON INGREDIENTS	
CAS Number:	4241-27-4	
Molecular Weight:	134.14	
Chemical Formula:	C7H6N2O	
Synonyms:	5-Cyano-6-hydroxy-2-picoline, 3-Cyano-6-methyl-2-pyridinol, 2-Hydrox	y-6-methylnicotinonitrile
4. FIRST-AID MEASURES		
Inhalation:	Immediately call a poison center or doctor. Move victim to fresh air. Give breathing. Administer oxygen if breathing is difficult. Keep victim warm a and supportively. Ensure that medical personnel are aware of the mater precautions to protect themselves.	and quiet. Treat symptomatically
Skin contact:	Immediately call a poison center or doctor. Remove and wash contamin case of contact with substance, immediately flush skin with running wate symptomatically and supportively. Ensure that medical personnel are av take precautions to protect themselves.	er for at least 20 minutes. Treat
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, ke material may irritate or burn eyes. Call emergency medical service. Mov remove any contact lenses. Keep victim warm and quiet. Treat symptom exposure to substance may be delayed. Ensure that medical personnel involved and take precautions to protect themselves.	e victim to fresh air. Check for and natically and supportively. Effects of
Ingestion:	Toxic if swallowed. Do not induce vomiting with out medical advice. If sw immediately and show the container or label. Do not use mouth-to-mout substance; give artificial respiration with the aid of a pocket mask equip proper respiratory medical device. Loosen tight clothing such as a collar vomits place them in the recovery position so that vomit will not reenter Keep victim warm and quiet. Treat symptomatically and supportively. Er aware of the material(s) involved and take precautions to protect themse	h method if victim ingested the bed with a one-way valve or other t, tie, belt or waistband. If a person the mouth and throat. Rinse mouth asure that medical personnel are
ymptoms/effects:		
Acute:	Redness.	
Delayed:	No data available	
nmediate medical attention:	WARNING: It might be dangerous to the person providing aid to give mo the inhaled material is toxic. If breathing has stopped, perform artificial r according to the nature of the injury. Ensure that medical personnel are and take precautions to protect themselves.	espiration. Use first aid treatment
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, $CO_2$ or water spray. Consult with local fire authorities befor fighting operations.	re attempting large scale fire
pecific hazards arising from the che		
lazardous combustion products: Other specific hazards:	These products include: Carbon oxides Nitrogen oxides Closed containers may explode from heat of a fire.	
neated. Move containers from fire area <b>Special protective equipment for fire</b> - Wear positive pressure self-contained b		s limited protection in fire situations
6. ACCIDENTAL RELEASE MEAS	SURES	
Personal precautions: Personal protective equipment:	Avoid contact with skin, eyes, and clothing. Keep people away from and damaged containers or spilled material unless wearing appropriate prote unnecessary personnel to move away. Stop leak if you can do it without Isolate the hazard area and deny entry to unnecessary and unprotected Wear eye protection (splash goggles) and face protection (full length fac	ective clothing (Section 8). Warn risk. Ensure adequate ventilation. personnel.

Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).

Emergency procedures:

Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

#### 6. ACCIDENTAL RELEASE MEASURES

#### Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatio should be sufficient to control airborne levels. Keep container dry. Handle and open container with care.
	Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Store locked up. Keep containers tightly closed in a cool, well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon).
Storage incompatibilities:	Combustible substances, Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

# Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	295°C (563°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limits Lower: No data av	
		Upper: No data av	vailable

Solubility(ies): Soluble: Dimethyl sulfoxide(DMSO)

# 10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Air sensitive. No hazardous reactivity has been reported. Air sensitive. Exposure to air. Oxidizing agents No data available

# 11. TOXICOLOGICAL INFORMATION

Acute Toxicity: No data available				
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
<b>Respiratory or skin sensitization:</b> No data available

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by gualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
