

Revision number: 2 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code: Isoliquiritigenin 10822

Product use: Restrictions on use:

#### Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

None

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention] [Response]

> [Storage] [Disposal]

Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:SubstanceComponents:IsoliquiritigeninPercent:>97.0%(HPLC)(T)CAS Number:961-29-5Molecular Weight:256.26Chemical Formula:C15H12O4Synonyms:(E)-1-(2,4-Dihydroxyphenyl)-3-(4-hydroxyphenyl)-2-propen-1-one, 2',4,4'-Trihydroxychalcone

For laboratory research purposes. Not for drug or household use.

**TCI AMERICA**

Wear cher provide little or no thermal protection.	cts include: Carbon oxides iners may explode from heat of a fire.
	re-control water for later disposal; do not scatter the material. Containers may explode when out risk. (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situations ical protective clothing which is specifically recommended by the manufacturer. It may
6. ACCIDENTAL RELEASE MEASURES	
Personal precautions: Avoid contact	
damaged co unnecessary Isolate the h	t with skin eves and clothing. Keen people away from and upwind of spill/leak. Do not touch
respirator. B	t with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch tainers or spilled material unless wearing appropriate protective clothing (Section 8). Warn personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Izard area and deny entry to unnecessary and unprotected personnel.
Emergency procedures: (nitrile). Prevent dus area, and ex appropriate confined are	ntainers or spilled material unless wearing appropriate protective clothing (Section 8). Warn personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.

## Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Environmental precautions: Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined

areas; dike if needed.

# 7. HANDLING AND STORAGE Precautions for safe handling: Avoid inhalation of vapor or mist. Avoid contact with skin and eyes. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition. Conditions for safe storage: Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon). Store in refrigerator. Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

#### Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder Pale yellow - Yellow red No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	198°C (388°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temper Flammability or exp Lower: Upper:	

Solubility(ies):

# 10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid:	Not Available. Air sensitive. Heat sensitive. Light sensitive. Moisture sensitive. No hazardous reactivity has been reported. Air sensitive. Exposure to air. Exposure to light. Exposure to moisture. Heat sensitive. Light sensitive. Moisture sensitive.
Incompatible materials:	Oxidizing agents
Hazardous Decomposition Products:	No data available

# 11. TOXICOLOGICAL INFORMATION

RTECS Number: FL7080000

Isoliquiritigenin	TCI AMERICA	Page 4 of 5
Acute Toxicity: orl-mus LDLo:1 g/kg	ipr-mus LDLo:3 g/kg	
Skin corrosion/irritation: No data available		
Serious eye damage/irritation: No data available		
<b>Respiratory or skin sensitization:</b> No data available		
Germ cell mutagenicity: mmo-sat 100 ug/plate (-S9)		
Carcinogenicity:		
No data available		
IARC: No data available	NTP: No data available	OSHA: No data available
<b>Reproductive toxicity:</b> No data available		
Routes of Exposure: Symptoms related to exposure: Skin contact may result in inflammation; cha or dry skin. Eye contact may result in rednes Potential Health Effects: Skin and eye contact may result in irritation. Target organ(s):	·	ring. Skin contact may result in redness, pain
12. ECOLOGICAL INFORMATION		
12. LOOLOGICAL INFORMATION		
Ecotoxicity Fish: Crustacea: Algae:	No data available No data available No data available	
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): Henry's Law: constant (PaM <sup>3</sup> /mol)	No data available No data available No data available No data available No data available No data available	
13. DISPOSAL CONSIDERATIONS		
Disposal of product: Disposal of container:	Recycle to process if possible. It is the generator's responsit rules and regulations. You may be able to dissolve or mix m chemical incinerator equipped with an afterburner and scrub assistance but does not replace these laws, nor does compl regulatory compliance according to the law. US EPA guidelin Waste are listed in 40 CFR Parts 261. The product should n water ways, or the soil. Dispose of as unused product. Do not re-use empty contained	aterial with a combustible solvent and burn in a ber system. This section is intended to provide iance in accordance with this section ensure hes for Identification and Listing of Hazardous ot be allowed to enter the environment, drains,
Other considerations:	Observe all federal, state and local regulations when disposi	ing of the substance.
14. TRANSPORT INFORMATION		
DOT (US)	Non-hazardous for transportation.	
IATA	Non-hazardous for transportation.	
IMDG	Non-hazardous for transportation.

# 14. TRANSPORT INFORMATION

## 15. REGULATORY INFORMATION

#### Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

#### 16. OTHER INFORMATION

Revision date: 10/06/2014

#### **Revision number: 2**

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
